We, the Data Wendy H. Wong, 2023-10-10 A rallying call for extending human rights beyond our physical selves and why we need to reboot rights in our data intensive world Winner of the 2024 Balsillie Prize for Public Policy Shortlisted 2024 Lionel Gelber Prize Our data intensive world is here to stay but does that come at the cost of our humanity in terms of autonomy community dignity and equality In We the Data Wendy H Wong argues that we cannot allow that to happen Exploring the pervasiveness of data collection and tracking Wong reminds us that we are all stakeholders in this digital world who are currently being left out of the most pressing conversations around technology ethics and policy This book clarifies the nature of datafication and calls for an extension of human rights to recognize how data complicate what it means to safeguard and encourage human potential As we go about our lives we are co creating data through what we do We must embrace that these data are a part of who we are Wong explains even as current policies do not yet reflect the extent to which human experiences have changed This means we are more than mere subjects or sources of data by products that can be harvested and used by technology companies and governments By exploring data rights facial recognition technology our posthumous rights and our need for a right to data literacy Wong has crafted a compelling case for engaging as stakeholders to hold data collectors accountable Just as the Universal Declaration of Human Rights laid the global groundwork for human rights We the Data gives us a foundation upon which we claim human rights in the age of data
