*The New Age of Sexism* Laura Bates, 2025-05-15 Laura Bates explains how they built the future and forgot to put women in it CAITLIN MORAN Fascinating and essential I urge you to read every syllable JO BRAND All men must read this book if they have any interest in a truly just, fair and equal society ROBIN INCE AI is here bringing a seismic shift in the way our society operates Might this mean a future reimagined on equitable terms for women and marginalised groups everywhere Not unless we fight for it At present power remains largely in the hands of a few rich white men New AI-driven technologies with misogyny baked into their design are putting women in danger their rights and safety sacrificed at the altar of profitability and reckless speed In *The New Age of Sexism* Sunday Times bestselling author and campaigner Laura Bates takes us deep into the heart of this rapidly evolving world She explores the metaverse, confronts deepfake pornography, travels to cyber brothels, tests chatbots and hears from schools in the grip of online sexual abuse showing how our lives from education to work, sex to entertainment are being infiltrated by easily accessible technologies that are changing the way we live and love What she finds is a wild west where existing forms of discrimination, inequality and harassment are being coded into the future we will all have little choice about living in unless we seize this moment to demand change Gripping, courageous and eye-opening *The New Age of Sexism* exposes a phenomenon we can't afford to ignore any longer Our future is on the line We need to act now before it is too late Urgent reading for anyone who is interested in the intersection of tech and gender equality and indeed anyone who wants to be a part of building a better future free from misogyny EMMA LOUISE BOYNTON A brilliantly researched, incredibly illuminating and frequently chilling account of the next chapter in tech's ongoing assault on our core values A chapter that is already unfolding around us all JAMES O'BRIEN

**The Mind of Everyday** Petraq Papajorgji, Howard Moskowitz, 2024-12-28 The advent of artificial intelligence (AI) is associated with relevant changes in how we live today AI has the potential to significantly enhance daily decision making by providing tailored, data-dependent insights and aiding in intricate analysis AI-based systems will be around us helping and advising us in our everyday tasks However, how well do these systems perform in their quest to replace the human brain A meter, a procedure for comparing the outcomes obtained by artificial intelligence

systems with those obtained by human systems is necessary to address this issue This meter is Mind Genomics a new emerging science that delves into the science of how we as humans organize and respond to information To evaluate whether there are differences in the results obtained by AI based systems and human based experiments based on Outer Psychophysics were designed and implemented Thus four experiments in crucial areas of our lives are selected and cover education family stress and environmental and governmental policies For each area a Mind Genomic experiment is designed defining four topics silos Then the elements contained in each of the silos were generated twice once by humans and then by an AI based system Evaluating both systems performance requires comparing the results obtained by both experiments The analysis of the study cases is disciplined rich in scientific tools and presented with methods Through a blend of theoretical exploration case studies and practical applications this book aims to inspire readers with the potential of the fusion of Mind Genomics and AI to empower innovation enhance user experiences and bring forth a more nuanced understanding of human thought Whether the reader is a student a researcher in the field of social and political sciences or simply curious about the evolving landscape of science and technology we hope this book will serve as an invitation to explore how we can harmonize human and machine intelligence to better navigate the complex world around us
