The AI Generation Olaf Groth, Mark Nitzberg, 2018-11-06 An update edition of Solomon's Code now The AI Generation the thought provoking examination of artificial intelligence and how it reshapes human values trust and power around the world Whether in medicine money or love technologies powered by forms of artificial intelligence are playing an increasingly prominent role in our lives As we cede more decisions to thinking machines we face new questions about staying safe keeping a job and having a say over the direction of our lives The answers to those questions might depend on your race gender age behavior or nationality New AI technologies can drive cars treat damaged brains and nudge workers to be more productive but they also can threaten manipulate and alienate us from others They can pit nation against nation but they also can help the global community tackle some of its greatest challenges from food crises to global climate change In clear and accessible prose global trends and strategy adviser Olaf Groth AI scientist and social entrepreneur Mark Nitzberg along with seasoned economics reporter Dan Zehr provide a unique human focused global view of humanity in a world of thinking machines

The Rise of AI Scott Billups, 2024-03-12 If you're looking for a feel good book about AI this isn't it This book is written by a battle scared veteran who has been innovating the use of AI in the trenches of Hollywood healthcare and defense for over twenty years Grounded in the author's extensive experience this book delivers a quantifiable vision of the near future that presents a uniquely relatable narrative Using personal ground breaking projects he leverages the well established precision of Moore's Law to trace the trajectory of pivotal AI driven technologies and project them into our immediate future

HEALTHCARE Healthcare is a ravenous beast that gobbles up more of the federal budget than Social Security Defense and education combined Despite the illusion of benevolence it is this country's largest industry with only one edict charge as much as the market will bear So before we start lauding the abilities of AI to revolutionize healthcare let's take a look at what is really going on Moore's Law indicates that without strategic advances in AI robotic healthcare the global healthcare system will collapse in eight years

AUTONOMOUS LETHALITY if AI were to take on human form devoid of morals unable to experience empathy and untouched by fear we would undoubtedly label such a being as an extremely dangerous psychopath Yet these same attributes conspire to give birth to weaponized autonomy the new face of armed conflict Moore's Law predicts that within the next five years we

will lose control of autonomous lethality as macro drones and bio bots upend the society's balance of checks and measures
