Tracey Tokuhamma-Espinosa

Easy Ai Transcription Tool Guide For Teens In America:

Treatment Program Evaluation Allyson Kelley, 2022-06-01 This invaluable text provides a rigorous guide to the assessment and evaluation of treatment programs through a multi disciplinary holistic model of care It highlights issues of race social justice and health equity and offers real world guidance to effect community healing and transformation Written by a researcher and experienced evaluator the book begins by outlining the theories and research which frame our understanding of substance misuse and upon which treatment programs are based It then examines the principles which should underpin any evaluation before detailing the practical various steps required to conduct an evaluation from data collection to outcome measurement The book shows too through detailed and effective evaluation policy changes can be made and treatment programs improved Including practical examples of evaluation and assessment throughout and also assessing the numerous social systems which can support recovery the book builds to a four step public health model for establishing sustainable treatment programs In an era where substance misuse has reached epidemic proportions in the United States and beyond this book will be essential reading for anyone involved in public health policy and practice in this important area

Resources in Education ,1975 *Bringing the Neuroscience of Learning to Online Teaching* Tracey Tokuhama-Espinoza, 2021 This practical resource draws on the best of neuroscience to inform decision making about digital learning We live in unprecedented times that have pushed schools to make many decisions that have been postponed for years For the first time since the inception of public education teachers have been invited to redesign the learning landscape by integrating an intelligent selection of digital educational resources and changing pedagogical approaches based on information from the learning sciences This handbook will help teachers make the most of this opportunity by showing them how to use digital tools to differentiate learning employ alternative options to standardized testing personalize learning prioritize social emotional skills and inspire students to think more critically The author identifies some gems in quality teaching that are amplified in online contexts including 40 evidence informed pedagogies from the learning sciences This book will help all educators move online teaching and learning to new levels of confidence and success Book Features Provides quick references to key planning tools like decision trees graphics app recommendations and step by step directions to help teachers create their own online learning courses Guides teachers through a 12 step model for instructional design that meets both national and international standards Shows educators how to use an all new Digital Resource Taxonomy to select resources and how to research and keep them up to date Explains why good instructional design and educational technology are complementary with best practices in learning sciences like Mind Brain and Education Science Shares ways teachers can leverage technology to create more time for the personalized aspects of learning Shows educators how to design online courses with tools that let all students begin at their own starting points and how to differentiate homework Offers evidence informed pedagogies to make online intimate and authentic for students
