Easy Ai Tools For Teachers For Remote Workers:

HRM, Artificial Intelligence and the Future of Work Olatunji David Adekoya, Chima Mordi, Hakeem Adeniyi Ajonbadi, 2024-08-22 The rise of artificial intelligence is having a profound impact on human resource management as AI is being used to automate a wide range of HR tasks and functions from recruiting and onboarding to performance management and compensation. However, the impact of AI on HRM is not evenly distributed. Due to a variety of factors, the Global South is lagging behind the Global North in terms of AI adoption, creating a widening disparity in the effectiveness and efficiency of HR operations. This edited book explores HRM, artificial intelligence, and the future of work in the Global South. It addresses key elements of how technology is transforming the workplace and people management, including HR automation, robotisation, big data analytics, smart systems, virtualisation, AI machine learning, and the Internet of Things. The chapters offer a collection of cases from various Global South countries, draw on various types of research (empirical, review, papers, conceptual, and theoretical), and incorporate contextual issues such as technology, politics, culture, ethics, and economics. Despite the relatively slow adoption of AI in the Global South compared to developed nations, its potential impact on the future of work remains significant, particularly in shaping the role of HR as a bridge between technology and human resources. This book will be a valuable resource for scholars, students, and policymakers interested in the future of work in the Global South, as it brings together critical insights from scholars and practitioners from the region, providing a much-needed perspective on this important issue.

Mobile Money Machines Siddharth Sharma, 2025-10-27 Discover 16 powerful AI-driven passive income models you can launch directly from your smartphone with little or no upfront costs.
