Digital Nomads. How the era of digitalization creates alternative lifestyles Lisa-Marie Wagner, 2020-06-18 Bachelor Thesis from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1 6 language English abstract In this paper the phenomenon of digital nomadism in permanent employment is presented In general digital nomads are characterized by their independence of location their employment in the digital space and common values Most of them are freelancers and entrepreneurs but also employees who are part of this movement want to leave the conservative concept of normal employment and break new ground First the changes in the business world and the emergence of digital nomadism were presented in this paper Due to a lack of literature guideline based expert interviews were conducted to gain insight into the opportunities and risks of the multi local lifestyle concept for employees and companies In addition the framework conditions for companies and digital nomads required by this work and life concept were examined and presented in detail Such a framework condition can mean for example the adaptation of processes and leadership There are also differences between completely remote companies and only partially remote companies which can lead to a split company structure In this context the similarities and differences between traditional telework and digital nomadism in permanent employment were also examined These are similar for example regarding the technical prerequisites that should be created in companies and the changed communication In addition there are challenges and opportunities that arise from the travel component and the nature of digital nomadism such as negatively impaired processes due to time differences or certain characteristics and experiences that digital nomads possess or experience that can be used positively in a professional context Thus this work not only serves a scientific purpose but also provides a practical framework for employing digital nomads in traditional companies

Digital Nomadism. How the era of Digitalisation changes work environment Lisa-Marie Wagner, 2020-11-24 Essay aus dem Jahr 2018 im Fachbereich BWL Unternehmensführung Management Organisation Note 1 0 FOM Hochschule für Ökonomie Management gemeinnützige GmbH München fürher Fachhochschule Veranstaltung Business Communication Skills Sprache Deutsch Abstract This paper deals with the changed situation of traditional workplaces flexible living and working models such as the digital nomadism and shows how digitization is fundamentally changing the world of work especially the flexibility of the workplace It will explain what will be demanded of traditional employees and digital nomads in the future which opportunities and risks will arise and which adjustments traditional companies will have to make For example the demands on employees especially their soft skills will change fundamentally in the coming years Intercultural competencies and analytical skills will gain in importance Also digital nomads have to face challenges which are similar to traditional self employed and freelancers Companies must continue to monitor future change and prepare their employees for future requirements Recruitment processes in human resources

departments will also change in the future because recruiting based on specialist knowledge alone will no longer be sufficient. The work is divided into a theoretical part and a practical part. In the theoretical part the terms that provide the fundamental basis of the work are explained and delimited and the concept and development of Digital Nomadism is presented. In a further step the possibilities for the practice of location independent work are examined. In the practical part the advantages and disadvantages of Digital Nomadism, opportunities and challenges are presented and building on these possible recommendations for action and possible future strategies for employees, the self-employed and traditional companies are derived. Subsequently a conclusion will be drawn and an outlook will be given on possible further research fields which could be the subject of other scientific papers. Primarily digital publications of literature and statistics were used for research on this new form of work which is characterized by rapid change and transformation. In order to build the work on current research results, mainly sources published in the last four years were used.

How To Be A Digital Nomad: Learn How You Can Start Work Online While Travel The World. Hey Fellow Reader, I'm Ida, a Digital Nomad and online marketer. I love travel. And I've been a Digital Nomad experiencing outdoor travel as well. Meanwhile, I love travel. I love to keep myself girly as much as possible on a budget while traveling. I have learned a lot since the past few years and I'll share all the things I've learned into this manuscript. Here is a part you'll find inside this book.

What is a Digital nomad? A digital nomad lifestyle is becoming more of the trend and this article will tell you what a digital nomad is and the realities of a Location Independent Business. What is a digital nomad and why are there so many people who want to work this way? A digital nomad is essentially a person who works for himself. Many work at home, mothers do this and are known as Full Time Gigs. Others work as freelancers and do things a specific way like transcribing, editing, proofreading or programming. However, some digital nomads work for service companies and do things like web design, web programming, accounting, creative writing or translation. Those who work a digital nomad lifestyle do not work for a company or boss but instead work for themselves. They set their own hours and follow their own rules. It is difficult to be self-employed in this society because you have to rely on the wills of others and your courage to set up your business. However, it is not impossible and there are different ways to be self-employed which can provide you with more freedom and flexibility while still bringing in some money. If you want to work at home, then this is the technology which is enabling the change and it is allowing nomads to work from home. Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones. However, it is not just the legal firms and public sector which are looking to employment technology in order to cut costs. Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits. For example, restaurants are using recruitment technology in order to lower salaries and costs. Until a few years ago, when every restaurant had a fixed cost of hiring, training and maintenance, the vast majority of restaurants were able to pay 100% of their employees' salaries. This meant that it was possible to pay a manager

less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now **The Remote Work Blueprint** Julian M.
