Donovan, 2025-04-30

Teaching Poetry in a Digital World supports English language arts (ELA) educators for grades 6-12 to incorporate digital literacy in their classrooms by teaching the reading and writing of poetry. In an increasingly digital age, educators must adapt to meet the changing needs and interests of their students by incorporating technology into the classroom. This book introduces its audience to the ePoetry Framework. This framework demonstrates how poetry might present itself in a literacy-based unit with the benefit of a technology medium to share with the world. Examples include teaching a poem incorporating haiku with the creation of GIFs and ethically discussing AI with sonnet poems. With adaptable lesson plans and assessments as well as educator examples, the book will inspire teachers to create intentional student-centered ePoetry units. The book is aligned with ELA literacy standards, International Society for Technology in Education (ISTE) educator standards, and National Council of Teachers of English (NCTE)'s position statement for integrating technology into ELA classrooms. It is a key resource for secondary school educators teaching ELA creative writing and digital media. **A Creator's Guide to Transmedia Storytelling: How to Captivate and Engage Audiences Across Multiple Platforms** Andrea Phillips, 2012-06-21
