Architects' Data Ernst Neufert, Peter Neufert, 2012-03-26 Neufert s Architects Data is an essential reference for the initial design and planning of a building project It provides in one concise volume the core information needed to form the framework for the more detailed design and planning of any building project Organised largely by building type it covers the full range of preliminary considerations and with over 6200 diagrams it provides a mass of data on spatial requirements Most illustrations are dimensioned and each building type includes plans sections site layouts and design details An extensive bibliography and a detailed set of metric imperial conversion tables are included Since it was first published in Germany in

1936 Ernst Neufert's handbook has been progressively revised and updated through 39 editions and many translations. This fourth English language edition is translated from the 39th German edition and represents a major new edition for an international English speaking readership. Reviews of the Previous Edition: Neufert's Architects Data was the first book I bought when I started my studies in architecture. It was invaluable for me then and it is still a useful aid in my designs. Cesar Pelli: With this thorough rewrite Neufert has produced yet again an invaluable reference book. The Architects Journal

Creation of a culture of appreciation at the workplace. Intrinsic and extrinsic motivation Alina Böhm, 2022-02-15
Bachelor Thesis from the year 2021 in the subject Business economics Business Management Corporate Governance grade 2
7 University of Applied Sciences Berlin language English abstract This thesis is about the creation of a culture of appreciation at the workplace. The basic needs of a human being were first addressed by the scientist Abraham Maslow who designed a pyramid of needs. In this pyramid he identified five hierarchical levels which factors are essential for people to experience a satisfying feeling. At the top of the list is the need for self fulfillment. This need is also reflected in the world of work. Almost everyone wants to be seen and appreciated by their colleagues and managers. The topic of appreciation in the workplace is not new but it is becoming increasingly important for companies. As the birth rate in Germany is steadily declining there will be fewer and fewer young skilled workers on the labour market in the future. From this the question can be derived to what extent can employees be made to feel equally valued as a human being and as a worker. And does this appreciation have a higher value for the employee than the salary.

AI Business for Everyone Michael T. Murphy, AI income strategies that actually work for YOUR life.
