[Towards a science of ideas: An inquiry into the emergence, evolution and expansion of ideas and their translation into action](#) Guido Enthoven, Seweryn Rudnicki, Rico Sneller, 2022-08-02 Ideas are the basic building blocks that construct the world we live in Yet despite the abundance of literature on creativity and innovation there has been little reflection on ideas as such their nature and their working mechanisms This book provides foundations for a reflection focused specifically on ideas what they

are how they emerge develop interact gain acceptance and become translated into actions In doing so the book moves beyond the mainstream approaches offering new promising theoretical angles presenting original findings and initiating a research agenda for a science of ideas This book provides a fresh perspective on how to conceptualize and study ideas and their working mechanisms by treating ideas as the main object of the study and by bringing together a group of original thinkers scholars and philosophers to move beyond the mainstream academic discourse on creativity and innovation **Go Virtual** David K. Boone,2003-10 Book Summary Circle of Helmets is a poignant and fascinating account of one infantryman's tour of duty in Vietnam during some of that war's heaviest fighting as told through first hand accounts written by that young soldier just hours after actual combat coupled with raw and intense poems about those battlefield experiences written by that same man some thirty years later Follow the author's journey from a brash inexperienced youth eager for his first combat mission to a seasoned hardened veteran striving to do his duty as a combat leader and come out alive Honest and powerful Circle of Helmets is a unique and very personal portrayal of combat in the Vietnam War and one man's efforts to face his memories of that war decades later Forget any other poetry books you have ever read this one unforgettable **The Story of Managing Projects** Elias G. Carayannis,Young Hoon Kwak, Frank T. Anbari,2005-01-30 Project management has been practiced for thousands of years but only recently have organizations begun to apply systematic management tools and techniques to manage complex projects Today's approaches to project management can be traced directly to methodologies designed by the U S military and Department of Defense in the years after World War II Subsequent advances in management information systems have helped to codify project management practices most recently the Internet has dramatically enhanced the ability of individuals teams and organizations to manage projects across continents and cultures in real time The Story of Managing Projects showcases cutting edge research conducted around the world on emerging practices in project management Covering an enormous spectrum of subjects and industries from an upgrade of the Greek railway system to infrastructure reconstruction in Kuwait the authors explore the full range of inter personal technical and organizational dynamics of project management contributing new insights to its theory and application **Team Building** Marcus Goncalves,2006 Volume 1 of the Technical Manager's Survival Guides [109 Ideas for Virtual Learning](#) Judy Breck,2006 109 IDEAS For Virtual Learning reveals the online knowledge venue that today's generation uses to learn while playing along at school to receive promotions diplomas and degrees Calling that venue the virtual knowledge ecology Judy Breck describes the networking of open content for learning online where knowledge is fresher authoritative and more compelling than at school In this book she provides her eyewitness account of the decade long ongoing cascade of what is known by humankind from traditional resources into the Internet and explains the network mechanisms that interconnect the knowledge once it gets online Breck says the resulting virtual knowledge ecology is causing students worldwide literally to study from the same virtual page The author forewarns readers to expect emerging good news as the virtual knowledge

ecology opens the way for a global golden age of education in which students learn more and teachers are respected professionals Breck contends that literacy and learning follow naturally from the Internet interfacing what humankind knows A boy or girl s hands can now hold a wireless device mirroring enlightenment from a new virtual venue into his or her mind
