Of Boys and Men Richard V. Reeves,2022-11-27 The Book that Sparked a National Conversation A Barack Obama 2024

Summer Reading Selection An Economist Best Book of 2022 A New Yorker Best Book of 2022 Boys and men are struggling
Profound economic and social changes of recent decades have many losing ground in the classroom the workplace and in the family While the lives of women have changed the lives of many men have remained the same or even worsened In this widely praised book Richard Reeves father of three sons a journalist and now the president of the American Institute for Boys and Men tackles the complex and urgent crisis of boyhood and manhood He argues that our attitudes our institutions and our laws have failed to keep up Conservative and progressive politicians mired in their own ideological warfare fail to provide thoughtful solutions Reeves looks at the structural challenges that face boys and men and offers fresh and innovative solutions that turn the page on the corrosive narrative that plagues this issue Of Boys and Men argues that helping the other half of society does not mean giving up on the ideal of gender equality

The De Gruyter Handbook of Automated Futures Vaike Fors, Martin Berg, Meike Brodersen, 2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation
