Artful AI in Writing Instruction Brett Vogelsinger,2025-05-14 Discover strategies to use AI thoughtfully in every stage of the writing process without compromising creativity or critical thinking Feeling conflicted about integrating artificial intelligence AI into your writing instruction You re not alone In a world where AI generated text can seem like a writing teacher s enemy incorporating it into writing instruction may feel like an act of betrayal The advent of generative AI might feel like one more thing eroding students capacity for deep thinking Artful AI in Writing Instruction offers strategies and lessons for middle and high school teachers to harness AI in a positive way integrating it into the writing process and evaluating the ethics of its usage Written by a full time high school teacher Brett Vogelsinger the book focuses on evergreen principles and ideas rather than specific AI tools providing concrete steps and lessons that teachers can implement without being technology experts Acknowledging

the varying perspectives of teachers on AI in writing instruction from skepticism to enthusiasm Brett offers a human centered considered and ethical approach to using generative AI in the classroom Demonstrating how AI can be used artfully in the classroom to enhance students writing skills and foster reflection on the writing process this book Provides standards aligned lessons that detail how AI can support instruction and assist students at each step of the writing process from prewriting through publishing Emphasizes how to use AI tools to mine authentic human ideas and enhance creativity in the classroom Aims to help teachers build a healthy relationship with AI technology and use it thoughtfully in their writing instruction Includes chapter features such as quotes from esteemed writers real teacher and student voices cautionary notes and Bot Thoughts entries of example AI output Artful AI in Writing Instruction is a book that explores technology with humility critiquing its drawbacks and harnessing its strengths in an effort to guide teachers on how to use AI to help students grow their thinking and their skills rather than bypassing that development

Artificial Intelligence and Human Rights Law in Africa Aderomola Adeola,2025-09-29 This book examines artificial intelligence AI in Africa from a rights based perspective In recent years technology has emerged as a significant disruptor with AI robotics and computer advancement in particular driving changes in societies around the world There are evident and daunting implications across contexts and continents and many countries are rapidly seeking to define patterns of solutions that can foster effective protection against the more challenging impacts of AI This book considers the consequences of AI for civil and political rights social economic and cultural rights and collective rights in Africa with particular reference to the African Charter It considers how AI risks violating the rights enshrined in the Charter and considers how the norms outlined in the African Charter can provide the basis for a response Overall this book examines how a rights based approach to AI can be realized emphasising the imperatives for steering implementation Providing an important guide for strategic action for the protection of human rights in the context of AI this book will be an important read for researchers policymakers and students in the fields of human rights and technology in Africa

More Than Words John Warner,2025-02-04 A veteran writing teacher makes a moving Rick Wormeli argument that writing is a form of thinking and feeling and shows why it can t be replaced by AI In the age of artificial intelligence drafting an essay is as simple as typing a prompt and pressing enter What does this mean for the art of writing According to longtime writing teacher John Warner not very much More Than Words argues that generative AI programs like ChatGPT not only can kill the student essay but should since these assignments don t challenge students to do the real work of writing To Warner writing is thinking discovering your ideas while trying to capture them on a page and feeling grappling with what it fundamentally means to be human The fact that we ask students to complete so many assignments that a machine could do is a sign that something has gone very wrong with writing instruction More Than Words calls for us to use AI as an opportunity to reckon with how we work with words and how all of us should rethink our relationship with writing
