**Clinical Topics in Teaching Psychiatry** Sarah Huline-Dickens, Patricia Casey, 2022-12-08 *Clinical Topics in Teaching Psychiatry* draws on classic papers previously published in *BJPsych Advances* alongside newly commissioned chapters to provide a rich overview of teaching and learning as applied to psychiatry. Written by clinicians, professors and lecturers, the book covers the direct teaching of the specialty through to educational management, coaching and mentoring. It examines diverse methods of teaching and learning from journal clubs to simulation and gives an updated overview of psychiatry in the foundation programme. It covers the challenges faced by trainers in recent times in delivering training virtually through webinars and remote placements. Newly commissioned chapters include how to conduct an online literature search, writing for learning and publication, delivering a good lecture and supporting trainees. Accessible throughout, the book provides much needed guidance for busy clinicians, primarily psychiatrists who are acting as trainers. It will also be an invaluable guide for trainees and other mental health professionals.
