Living and Investing in Spain Mohammad Ali-Azad Samiei, 2026-01-01

Living and Investing in Spain Complete Guide 2026 Edition If you are planning to do your residency in Spain here's what official guides don't tell you: rules on paper are not always followed in practice. The same file can go smoothly for one person but get stuck for another depending on how systems interpret your documents, address and presence. Inside you'll find detailed coverage of Spain's residency options, how housing (whether lease or purchase) often becomes the key that opens or blocks residency, the realities of administrative systems, daily life and integration, and the risks that influence trust and exposure. Each section offers step-by-step guidance in plain language, providing you with practical sequences to follow. This book employs SHADi Associates' comparative method, placing Spain alongside Portugal, Greece, Malta, and Hungary to demonstrate how countries differ at a structural level. At SHADi Associates, knowledge is our main product. We provide dependable insights to help you make informed decisions before you commit. In practice, that means helping you determine which country suits your situation, equipping you to identify trustworthy relocation agents from opportunists, showing you how to seamlessly integrate into Spain's systems. This guide is designed for globally mobile people: investors, retirees, digital nomads, students, families, and anyone curious about how Spain's bureaucracy truly functions.

Tourism Recovery Based on Digital Nomadism Post-COVID-19 in Ubud, Bali Fransisco Situmorang, 2022-05-30

The COVID-19 pandemic is the worst crisis and historical record for the global tourism sector since the 1950s. Destinations that rely heavily on the tourism sector will face this pandemic's extraordinary impact, such as Bali, which experienced a significant depreciation of economic growth. However, the COVID-19 pandemic is also the right opportunity and momentum to redesign tourism development more sustainable to overcome the overtourism issue in Bali. Tourism recovery efforts must be carried out immediately by prioritizing product diversification and increasing destinations' value and quality according to tourism development trends such as digital nomadism. Digital nomadism as a lifestyle allows individuals to work regardless of location and take advantage of that freedom to travel worldwide. The practice of digital nomadism has developed rapidly pre-pandemic in the Ubud Tourism Area, Bali, and it will increase further due to the digital transformation of human life during the COVID-19 pandemic. The Ubud Tourism Area recovery as a digital nomadism destination must be a priority consideration by the government, tourism entrepreneurs, and local communities in entering the post-normal tourism period.
