

# 9 Tips for Working Remotely

## SPACE

Designate a space for work & work only. Minimize interruptions from family & roommates there.

## DOOR

Close the door to your workspace. This reminds others you are busy while minimizing noise.

## HEADSET

Use headsets, not speakerphones. Most speakerphones have technical limitations.

## PAUSE

On conference calls, pause often. You cannot see body language & this allows more feedback.

## VIDEO

Use video as much as possible. A major portion of our communication is non-verbal.

## EYE CONTACT

On video calls, look into the camera, not at the other person. Participants perceive this as making eye contact.

## ONLINE

Use online tools to access your work from any computer, whether at home or the office.

## BACK UP

Remember to connect to your office network or manually make backup copies of work.

## FOCUS

The human brain does not multitask. When working, focus on work. When with your family, be fully with them.

*Tips and Tricks To Working Online* Kristi Griffin, 2021-03-15

Working online or remotely has become a necessity for many this year. However, this is just the start of a larger trend. It is predicted that by 2027 the majority of the US workforce will be working remotely online. The office work lifestyle is familiar to most people: get dressed in your company clothes, commute to work, work in a room with a few other people, take scheduled breaks, et cetera. But remote workers at online jobs don't encounter most of those situations. They don't need to get dressed in company attire or commute to work. But it can be difficult for online workers to navigate working away from the office. Best practices are not as well defined because online work, at least in its current form, is still relatively new, so it can be difficult to know how you should act when working from home. There is no single formula for how to become an efficient online worker. Everyone will work at different times and have different tips on how to make the most of their time. Indeed, one of the major benefits of remote work is the flexibility it affords. Working from home means that you can adjust your schedule to suit your commitments and your timetable as it is in your hands now. However, this means that you need to learn what works best for you when managing your priorities and time, and everyone is slightly different. That said, there are a few common practices you can expect to use as a remote worker. In this guide, we've compiled the best practices for online remote workers, ranging from how to participate in meetings to how you can find an online job as a remote worker. If you're working from home or aspire to do so, this guide is for you.

**Working Remotely Is a New Normal** Glenn Carrey, 2020-10-10 Working remotely is a new normal and you have learned that remote work will look very different whether you have been operating remotely for several years or are just starting. It depends on where you are working, what you focus on, who you work with and what you work for. It depends on where you live and whether you live alone or with a group of other people. When you spend your time as a distant job, you will always remember that working remotely is an art. In a dispersed environment, individuals are not usually taught how to succeed. They systematically study design, marketing, advertising, production, finance, law or education to learn a particular profession. But when they are not physically around other people, will they perform the profession at a high level on their own? Remote employees have to understand this. This book is especially for you if you work from home. Discover how a quality workspace can be set up. Learn the behaviors and practices which lead to the success of remote workers. In a dispersed workplace, you too will flourish. Working from home requires additional arrangements, purpose and treatment. This toolkit's tips and guides are here to help you do your best job everywhere you work. It can seem like a beautiful dreamland for those who do not have the chance to do it full of cozy jammies, no noise and daytime TV. But for all of those who routinely work from home, you know this is like a dream comes true. This book is full of secrets like: How remote teams work, How to build corporate culture in remote teams, 5 essential pillars to create best remote team, Secrets of successful virtual team, How to avoid burnout while working remotely, Secrets to increase productivity in virtual team. It's an art form to work from home and I've learned some significant lessons on how you can just make things work for you without going mad and creeping back to your office looking for a cubicle.
