University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles University of California (System). Institute of Library Research, University of California, Berkeley, 1972 *Think Like a Human* David Weitzner, 2025-05-13 A new way of thinking that improves how we work create and live empowering readers to outsmart AI a tool that can never do what humans do The bedrock on which technology has been built and on which we now make strategic political ethical and even day to day decisions algorithmic thinking is flawed As we race headlong into a future where we outsource all our problem solving to artificial intelligence the greatest threat is not superintelligent machinery but too much trust in Big Tech and not enough trust in the power of our own minds *Think Like a Human* offers a new way forward what Dr Weitzner calls artful intelligence a philosophy that can help each of us solve problems and make better decisions To think artfully is to approach problem solving not just with our brains but with our hands eyes and ears along with our literal and metaphorical hearts and guts tapping into the myriad of underutilized cognitive resources distributed throughout our bodies *Think Like a Human* is a refreshing antidote and reality check to artificial intelligence mania and fear Cutting through the hype misinformation and corporate hustle around AI this book will inspire you to adopt the artful approach bringing intuition and emotional intelligence to your work and life *Drivers, Barriers and Social Considerations for AI Adoption in Supply Chain Management* Dr. Johannes Hangl, 2025-01-14 Doctoral Thesis Dissertation from the year 2025 in the subject Business economics Supply Production Logistics grade magna cum laude Mendel University Business and Economics language English abstract The dissertation explores the integration of artificial intelligence AI with supply chain management SCM highlighting both opportunities and challenges It begins by discussing the current state of AI in SCM identifying research gaps and explaining foundational concepts like SCM complexities the Supply Chain Operational Reference Model SCOR and AI algorithms in SCM Using a structured methodology the study includes a detailed literature review survey design and expert interviews Key findings reveal that AI adoption in SCM is driven by increased efficiency improved decision making and cost reduction However barriers such as data quality issues resistance to change and lack of understanding and trust in AI are significant To overcome these barriers companies should involve all stakeholders focus on data quality and integrate AI solutions with existing processes The research emphasizes avoiding common mistakes in AI implementation such as neglecting explainability and transparency underestimating stakeholder involvement and rushing into large scale implementation without pilot projects It concludes with actionable guidelines for businesses on developing purchasing and implementing AI solutions in SCM These guidelines include prioritizing data quality enhancing technical expertise focusing on tangible business benefits and upholding ethical standards The dissertation also discusses the implications for academia and industry acknowledging limitations and

suggesting future research directions It highlights the potential of AI to revolutionize areas like demand forecasting inventory optimization and transportation through advanced predictive analytics and integration with technologies like IoT blockchain and robotics The study underscores the importance of ethical AI implementation transparency and human AI collaboration to address SCM challenges effectively

Four Days a Week Juliet Schor, 2025-06-03 Bestselling author leading sociologist and economist Juliet Schor makes the case for a four day work week persuasively showing how this model can address major challenges such as burnout AI and the climate crisis and how employees companies and governments can work together to make it a reality Around the world long hours and intense pressure are taking their toll When the pandemic hit in 2020 work induced stress and burnout skyrocketed Many reached a breaking point Now three quarters of the world s employees are disengaged and struggling including in the US and Canada where half are experiencing high levels of daily stress Our current work culture the five day forty hours a week model which has gone unchanged for nearly a century is failing But a remedial countertrend has emerged the four day work week Kickstarter Bolt Basecamp ThredUp and hundreds of other employers have eliminated the fifth day of work successfully figuring out how to maintain productivity while seeing remarkable improvements in employee well being Hiring is easier and fewer people are quitting These results are global Working a four day week people feel energized capable and more optimistic about their lives and their jobs Four Days a Week is the first large scale study of this trend Juliet Schor an expert who has researched and written about work for more than four decades beginning with her New York Times bestseller The Overworked American in 1992 shares her pioneering analysis of the benefits of a shorter work week how companies can achieve them why the concept has taken so long to emerge and gain acceptance and why doing so will help a company s employees and its bottom line The book is a blueprint for implementing a change that once seemed radical but is now within reach
