*Do More in Four* Joe O'Connor,Jared Lindzon,2026-01-13 An impassioned and data driven case for a four day workweek

The five day workweek is a pillar of modern life but it isn't backed by science, ancient wisdom or divine decree. It's simply a relic of the industrial age and it's time for an upgrade. What if we could accomplish more while working fewer days? A shortened workweek once seemed like a radical idea. Today it's embraced by innovative business leaders, forward thinking politicians and a new generation of workers demanding more meaningful work. In *Do More in Four*, Joe O'Connor, a pioneer in designing and leading four day workweek pilots around the globe, and journalist Jared Lindzon, whose work has appeared in the New York Times, Fortune and TIME magazine, present a groundbreaking data driven exploration of why a four day workweek isn't merely possible, it's necessary in the age of artificial intelligence. O'Connor and Lindzon draw on extensive research, compelling case studies and personal interviews with experts including a Nobel Prize winning economist and Bill Gates to reveal how organizations are reimagining work. From a consumer products giant in New Zealand to a global nonprofit, a Canadian law firm and a Midwestern architecture firm, they take readers inside the companies transforming their work models to improve employee outcomes while driving revenue growth. *Do More in Four* offers a battle tested blueprint for a smarter, more humane approach to work.
