Abstracts ,2007 Youtube Mastery Marketing Robert Grow,2020-10-16 Many people have discovered creative methods to
earn money using the internet A money making technique that is currently popular today is the monetization of YouTube
channels Whether you are a musician who wants to get some attention from music fans all over the world or a business
owner who is establishing a video library for the products that you are selling monetizing your YouTube account is a great
way to build a reliable income provided you do it correctly There is a lot of misconception about YouTube as a social media
platform Because of the ease with which users can update and create their own content it often seems like less of a social
media network and more of a personal page But just because you can use Facebook Twitter and the like to promote your
video doesn t mean that YouTube isn t a viable social media platform In fact YouTube can be seen as the heart of the social
media platforms as its content is widely distributed throughout the other platforms In fact 400 tweets per minute contain a
YouTube link and YouTube s search bar is the second only after Google YouTube has the benefit of having one of the most
engaged audiences out of the social media platforms With tweets flooding Twitter news feeds and posts cluttering Facebook
feeds it s harder than ever to reach followers on platforms However 85% of YouTube subscribers consider themselves regular
YouTube users It s recommended that if you do pursue creating a YouTube channel that you have a professional team of
producers and creators as the content uploaded should maintain a high standard However a lot of big Youtubers have started
with just their mobile phone and a personality Now video content and a strong YouTube presence can be significantly harder
to establish than say Twitter Facebook or Instagram But if video content were right for your brand it would be well worth the
extra step As YouTube is free to set up and easy all you need is your Gmail address and you re set the company makes its
massive profits from ads While they are reserved for those top budget players YouTube still has certain issues with the ads as
they are considered a form of interruption messaging i e not organic content that is so highly favored on other social media

platforms Essentially the paid ads are disrupting viewers from what they are doing on the site And with the ease of the Skip Now button the ads have a high chance of not being viewed if they are not properly targeted This guide will focus on the following Features and impact of YouTube YouTube tools to help you target viewers Creating great YouTube content How the YouTube algorithm works How to get more YouTube subscribers Making your videos Bringing in the traffic Picking a profitable niche and keyword research SEO YouTube channel goals you can control AND MORE **The New York Times Index**, 2007 *Ultimate Guide to YouTube for Business* Jason R.
