Obsolete to Optimal: How AI can transform aging U.S. enterprise systems in Insurance and Retail 2025
AUTHOR:1 - Pratyosh Desraj, AUTHOR:2 - Dr Rohit Kumar Sachan, PREFACE In an era defined by rapid technological change and increasing customer expectations many of the enterprise systems that underpin the U S insurance and retail sectors find themselves at a crossroads Built decades ago to handle today s challenges these legacy platforms struggle under the weight of ever growing data volumes complex regulatory demands and the onslaught of digitally savvy consumers Yet within these very constraints lies extraordinary opportunity the chance to transform the obsolete into the optimal by harnessing the power of artificial intelligence Obsolete to Optimal was born from conversations with technology leaders data scientists and operations executives who shared a common refrain We know AI can help but where do we start and how do we avoid the pitfalls This book seeks to answer those questions by weaving together strategic insight practical guidance and real world examples Our goal is twofold first to demystify the process of embedding AI within aging infrastructures and second to show how this integration not only solves immediate operational challenges but also lays the groundwork for sustainable future proof growth Throughout these pages you will find a progression that mirrors the journey every organization must undertake We begin by establishing why data modernization is not merely an IT upgrade but a business imperative From there we delve into the human element empowering employees to work alongside AI embracing new roles and cultivating a culture of continuous learning Sector specific chapters then illuminate how AI can revolutionize core functions from underwriting and claims processing in insurance to inventory management and personalized marketing in

retail No transformation is without its challenges We confront head on the technical hurdles of integrating AI with brittle legacy systems the organizational resistance that accompanies any major change and the ethical considerations that arise when machines make decisions that affect real people By offering frameworks for governance bias mitigation and transparent decision making we aim to equip leaders not only to deploy AI effectively but to do so responsibly Finally as we look toward 2030 we paint a vision of industries that have shed their outdated pasts and embraced an AI powered future one characterized by agility resilience and customer centric innovation Whether you are a C suite executive charting a digital strategy a technology professional tasked with implementation or an academic seeking to understand the practical contours of AI adoption this book is your guide It is my hope that by the final chapter you will see legacy systems not as obstacles but as ripe opportunities platforms ready to be upgraded enhanced and reinvigorated by intelligent automation May Obsolete to Optimal inspire you to embark on that transformation journey and may you find the insights here both actionable and enduring Authors Pratyosh Desraj Dr Rohit Kumar Sachan Values Information from AI The Values We Share Project, Values information from AI is a collection of information and images of values generated from an AI tool as part of The Values We Share Project to promote values All information in this book can be used to promote values and can be used as material in values formation programs All information in this book will also be used in The Values We Share Project videos materials and courses in the future Visit The Values We Share Project at <http://thevaluesweshare.info> BUSINESS AMERICA, 1985
