AI Can't Write, But You Can Tom Albrighton, 2024-10-01 Everyone's talking about AI and using automated writing tools like ChatGPT. But what's really going on when we ask a machine to write for us? And should we be using these tools at all? AI Can't Write But You Can takes a deep dive into the implications of ChatGPT and makes a passionate case for the value of human writing in the age of AI. This concise and hard-hitting book covers how ChatGPT works, what it can do, and the limits to its capability. The many benefits of writing your own text and how ChatGPT undermines them. Why only you can write from your unique experience and view of the world. How ChatGPT hallucinates and makes mistakes. What ChatGPT means for art, learning, and the workplace. Why ChatGPT is a parasite on human creativity. Why questioning ChatGPT doesn't make you a Luddite. Twelve actionable tips for making your writing stand out from content produced with AI. If you've ever wondered what's going on behind the screen with ChatGPT or questioned the morality of automated writing tools, AI Can't Write But You Can is for you. Written by veteran writer and editor Tom Albrighton, author of How to Write Clearly and Copywriting Made Simple, and original co-founder of ProCopywriters.

*Generative AI and Education* B. Mairéad Pratschke, 2024-08-27 This volume addresses the gap in knowledge around generative AI and its applications in education It draws on the recent history of technological innovation and digital pedagogies locating generative AI in the contemporary discourse around education futures It argues that a new hybrid model of education is emerging requiring educational institutions to embed generative AI into course and programme design delivery and assessment It also proposes a shift from a focus on learning as output to learning as a process and explores what that shift might look like Grounded in educational theory it offers actionable pedagogy informed guidance on how to position AI as a collaborator in the construction of learning in a manner that is congruent with the values and aims of education It offers advice based on evidence based digital pedagogy including frameworks for effective teaching and learning with generative AI that enable educators and designers to put these ideas into practice The book also explores the wider context informing this shift connecting narratives from governments and industry leaders on the strategic importance of generative AI and lifelong learning learning agility and future skills that make the case for the integration of competency based assessment into mainstream education Finally going beyond pedagogy and practice it considers some of the broader issues including limitations and ethics and the implications of integrating generative AI into institutional planning and design and includes a sample roadmap for education leaders to start the process of integrating generative AI into their institutions This work approaches the topic of generative AI from the vantage point of educators by addressing themes and concerns that will resonate with professionals in the sector
