Surviving the Algorithm Mike Liu, 2025-09-02 Algorithms now shape what we see how we work and how we understand each other They amplify some voices bury others and quietly decide who gets noticed and who is left behind While many celebrate AI's efficiency and innovation the deeper story is the human struggle to survive in systems we do not control Drawing on decades of experience as a linguist educator and observer of political systems Mike Liu reveals the illusions behind AI's fluency and the dangers of mistaking convenience for consciousness From classrooms in Taiwan to boardrooms shaped by short term politics he shows how survival in the age of AI is not about running faster than machines but about seeing clearly through the illusions they create This book explores three urgent domains 1 Education under pressure Why cramming cultures and outdated teaching models collapse in an AI driven world 2 Politics of survival How factions media cycles and short term power struggles leave nations unprepared for disruption 3 Human projections onto machines Why we sense stubbornness trust illusions or hear a neural accent in AI's voice **Surviving the Algorithm** is not a technical manual It is a survival guide for educators policymakers students and anyone navigating a world where algorithms increasingly define value It challenges us to reclaim clarity purpose and meaning before the noise of machines drowns them out

Engage to Win Steve Lucas, 2018-09-18

Engagement is the key to success for today's businesses The world we live in is radically different today from what it was even just five years ago It is hyperdigital and becoming more so every day Ironically we use connected to describe this new world yet we are asked to interact increasingly through apps and browsers instead of via face to face contact with customers and clients Even with all the incredible advances it's worth pondering whether organizations actually feel more connected to the people and the companies they do business with In Engage to Win author Steve Lucas introduces a new model for marketing to address this new hyper digital world one founded on engagement He introduces the idea that embracing and driving engagement throughout organizations and using it with customers prospects employees and partners is what will set companies apart This digital era demands that marketers understand the science of marketing in order to scale and succeed But if we embrace mathematics alone while abandoning feeling meaning and authenticity we will fail to deliver on the desires of our clients to feel listened to and understood So how do we win the heart and mind of the buyer in this new world Develop a real strategy around engagement by practicing these simple steps listen learn and engage Listening creates insights insights drive engagement and engagement drives revenue Truly engaging with customers will allow businesses to see in real time when customers wants and needs are changing so businesses will be able to adapt survive and ultimately thrive
