Will AI Replace Us? (The Big Idea Series) (The Big Idea Series) Shelly Fan, 2019-08-20 This timely volume in The Big Idea series surveys the evolution of AI over the last sixty years and explores how it's transforming society today and for decades to come. Artificial Intelligence, which once felt like a far-off futuristic fantasy, is now changing everyday life. The past sixty years have witnessed astonishing bursts of growth in the field of AI, the science and computational technologies that teach machines to sense, learn, reason, and act. AI is already altering our lives in ways that benefit health, productivity, and entertainment. Are we on the threshold of an AI-dominated world in which humans will no longer be necessary? Broken down into the past, present, and future of AI, *Will AI Replace Us* gives the reader what they need to know in order to form an opinion about the revolutionary advances in technology. University of California, San Francisco neuroscientist Dr. Shelly Fan expertly explains all sides of the debate, making the relevant science approachable for readers. Accompanying her intelligent text are numerous illustrations that add a compelling and informative visual element. Timely and relevant, *Will AI Replace Us* is an important read in the Digital Age.

The Hype Machine Sinan Aral, 2021-09-14 A landmark insider's tour of how social media affects our decision making and shapes our world in ways both useful and dangerous, with critical insights into the social media trends of the 2020 election and beyond. The book might be described as prophetic. At least two of Aral's three predictions have come to fruition. New York Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY WIRED. LONGLISTED FOR THE PORCHLIGHT BUSINESS BOOK AWARD. Social media connected the world and gave rise to fake news and increasing polarization. It is paramount. MIT professor Sinan Aral says that we recognize the outsized effect social media has on us, on our politics, our economy, and even our personal health. In order to steer today's social technology toward its great promise while avoiding the ways it can pull us apart, Aral draws on decades of his own research and business experience. Aral goes under the hood of the most powerful social networks to tackle the critical question of just how much social media actually shapes our choices, for better or worse. He shows how the tech behind social media offers the same set of behavior-influencing levers to everyone who hopes to change the way we think and act, from Russian hackers to brand marketers. Which is why its consequences affect everything from elections to business, dating to health. Along the way, he covers a wide array of topics, including how network effects fuel Twitter's and Facebook's massive growth, the neuroscience of how social media affects our brains, the real consequences of fake news, the power of social ratings, and the impact of social media on our kids. In mapping out strategies for being more thoughtful consumers of social media, *The Hype Machine* offers the definitive guide to understanding and harnessing for good the technology that has redefined our world overnight.

Psychological Warfare in Political Campaigns Kunal Deshpande, 2025-02-20 Psychological Warfare in Political Campaigns explores the intricate world of political influence focusing on psychological strategies used in both warfare and democratic processes Tailored for a global audience particularly readers in the United States we provide a nuanced understanding of how psychological tactics shape public opinion and decision making We examine the foundational principles of psychological warfare tracing its historical roots and contemporary applications From ancient civilizations to modern conflicts we illuminate the evolution and relevance of psychological tactics in shaping narratives and perceptions Central to our discussion is the exploration of persuasion techniques deeply ingrained in political campaigning Through an analysis of cognitive biases and persuasive communication strategies we unveil the mechanisms behind effective messaging and voter mobilization A significant portion of our book dissects propaganda techniques particularly relevant in an era dominated by digital media and information warfare We equip readers with tools to recognize and counter various forms of propaganda We also delve into the role of social media in amplifying psychological operations exploring how platforms like Facebook Twitter and YouTube manipulate public opinion and sow discord While much of our discourse focuses on the civilian sphere we also examine the use of psychological operations in military contexts From influencing enemy morale to shaping battlefield

perceptions we provide an overview of strategies employed by military forces to achieve psychological dominance

Un-Trumping America Dan Pfeiffer, 2020-02-18 From the 1 New York Times bestselling author of Yes We Still Can and cohost of Pod Save America a sharp political playbook for how Democrats can take on the right wing circus dominating American politics There is nothing more important than beating Donald Trump in 2020 but defeating Trump is just the start of this timely book Un Trumping America offers readers three critical insights first Trump is not an aberration but rather the logical extension of the modern Republican Party second how Democrats can defeat Trump in 2020 and third preventing the likes of Trump from ever happening again with a plan to fix democracy While the catalog of the president's crimes is long and growing undoing Trumpism the political platform of racism authoritarianism and plutocracy that gave rise to Trump and defines the Republican Party is a long and continuing fight Through a craven cynical strategy engineered by Mitch McConnell funded by the Kochs and fueled by Fox News propaganda Republicans have rigged American politics to drown out the voices of the people in favor of the powerful Without an aggressive response that recognizes who the Republicans are and what they have done American democracy as we know it won't survive this moment and a conservative shrinking mostly white minority will govern the country for decades Un Trumping America dismantles toxic Trumpism and offers a way forward Dan Pfeiffer worked for nearly twenty years at the center of Democratic politics from the campaign trail to Capitol Hill to Barack Obama's White House But it was Trump's victory and Republicans' incessant aiding and abetting of Trumpism that has radicalized his thinking Here Pfeiffer urges Democrats to embrace bold solutions from fixing the courts to abolishing the electoral college to eliminating the filibuster in order to make America more democratic and Democratic Un Trumping America is a powerful call for Democrats and progressives to get smarter tougher and more aggressive without becoming a paler shade of orange
