Man vs. machine: Experimental evidence on the quality and perceptions of AI-generated research content

Keenan, Michael, Koo, Jawoo, Mwangi, Christine, Karachiwalla, Naureen, Breisinger, Clemens, Kim, MinAh, 2025-02-24

Academic researchers want their research to be understood and used by non technical audiences but that requires communication that is more accessible in the form of non technical and shorter summaries The researcher must both signal the quality of the research and ensure that the content is salient by making it more readable AI tools can improve salience however they can also lead to ambiguity in the signal since true effort is then difficult to observe We implement an online factorial experiment providing non technical audiences with a blog on an academic paper and vary the actual author of the blog from the same paper human or ChatGPT and whether respondents are told the blog is written by a human or AI tool Even though AI generated blogs are objectively of higher quality they are rated lower but not if the author is disclosed as AI indicating that signaling is important and can be distorted by AI Use of the blog does not vary by experimental arm The findings suggest that provided disclosure statements are included researchers can potentially use AI to reduce effort costs without compromising signaling or salience Academic researchers want their research to be understood and used by non technical audiences but that requires communication that is more accessible in the form of non technical and shorter summaries The researcher must both signal the quality of the research and ensure that the content is salient by making it more readable AI tools can improve salience however they can also lead to ambiguity in the signal since true effort is then difficult to observe We implement an online factorial experiment providing non technical audiences with a blog on an academic paper and vary the actual author of the blog from the same paper human or ChatGPT and whether respondents are told the blog is written by a human or AI tool Even though AI generated blogs are objectively of higher quality they are rated lower but not if the author is disclosed as AI indicating that signaling is important and can be distorted by AI Use of the blog does not vary by experimental arm The findings suggest that provided disclosure statements are included researchers can potentially use AI to reduce effort costs without compromising signaling or salience

AI Can't Write, But You Can Tom Albrighton,2024-10-01 Everyone s talking about AI and using automated writing tools like ChatGPT But what s really going on when we ask a machine to write for us And should we be using these tools at all *AI Can t Write But You Can* takes a deep dive into the implications of ChatGPT and makes a passionate case for the value of human writing in the age of AI This concise and hard hitting book covers How ChatGPT works what it can do and the limits to its capability The many benefits of writing your own text and how ChatGPT undermines them Why only you can write from your unique experience and view of the world How ChatGPT hallucinates and makes mistakes What ChatGPT means for art learning and the workplace Why ChatGPT is a parasite on human creativity Why questioning ChatGPT doesn t make you a Luddite Twelve actionable tips for making your writing stand out from content produced with AI If you ve ever wondered what s going on behind the screen with ChatGPT or questioned the morality of automated writing tools *AI Can t Write But You Can* is for you Written by veteran writer and editor Tom Albrighton author of *How to Write Clearly and Copywriting Made Simple* and original co founder of ProCopywriters **Pass the First Certificate in English®** Jonah Wilson,2022-02-16 El examen First Certificate in English est dise ado para candidatos de nivel intermedio alto correspondiente al nivel B2 del Marco Com n Europeo de Referencia MCER o CEFR por sus siglas en ingl s pero tambi n puede medir a los candidatos con niveles avanzados as como niveles intermedios bajos Las puntuaciones se dan de forma individual en cada una de las pruebas que luego se promedian para obtener una puntuaci n global en la Escala de Ingl s de Cambridge Las puntuaciones oscilan entre 140 nivel B1 del MCER y 190 puntos lo que equivale al nivel C1 del MCER Este libro comprende la pr ctica de las cuatro habilidades b sicas que contempla el examen Reading and Use of English Listening Writing Speaking Todos los ejercicios tienen respuestas en la parte final del libro adem s de transcripciones de los audios Incluye links de descarga de audios y de pruebas en l nea similares a las del examen *AI in Talent Development* Margie Meacham,2020-12-15 Creating Transparent AI From agriculture to transportation entertainment to medicine and banking to social media artificial intelligence AI is changing how humans do practically

everything We experience AI in our daily lives through our fitness trackers home digital assistant systems and curated news services to name a few examples For talent development this is no different The fields of artificial intelligence and talent development have been on a collision course for decades and their convergence has already occurred It has just taken many in our profession some time to recognize this fact On the horizon AI powered innovations are transforming the workplace and the role of the talent development professional affecting recruiting to training to compensation As such there are actions TD professionals should take now to prepare ourselves and our organizations for the evolving AI revolution In AI in Talent Development Margie Meacham describes the benefits uses and risks of AI technology and offers practical tools to strengthen and enhance learning and performance programs In layman s terms Meacham demonstrates how we can free time for ourselves by employing a useful robot assistant create a chatbot for specific tasks such as a new manager bot a sales coach bot or new employee onboarding bot and build personalized coaching tools from AI processed big data She concludes each of the six chapters with helpful tips and includes a resource guide with planning tools templates and worksheets Meacham dispels fear of AI s black box the term used to describe its unknowability and opacity and points out ways AI can help us be better at creativity and critical thinking what we humans do best

Who Wrote This? Naomi S. Baron, 2023-09-12 Would you read this book if a computer wrote it Would you even know And why would it matter Today s eerily impressive artificial intelligence writing tools present us with a crucial challenge As writers do we unthinkingly adopt AI s time saving advantages or do we stop to weigh what we gain and lose when heeding its siren call To understand how AI is redefining what it means to write and think linguist and educator Naomi S Baron leads us on a journey connecting the dots between human literacy and today s technology From nineteenth century lessons in composition to mathematician Alan Turing s work creating a machine for deciphering war time messages to contemporary engines like ChatGPT Baron gives readers a spirited overview of the emergence of both literacy and AI and a glimpse of their possible future As the technology becomes increasingly sophisticated and fluent it s tempting to take the easy way out and let AI do the work for us Baron cautions that such efficiency isn t always in our interest As AI plies us with suggestions or full blown text we risk losing not just our technical skills but the power of writing as a springboard for personal reflection and unique expression Funny informed and conversational Who Wrote This urges us as individuals and as communities to make conscious choices about the extent to which we collaborate with AI The technology is here to stay Baron shows us how to work with AI and how to spot where it risks diminishing the valuable cognitive and social benefits of being literate
