*The Nature of Business Transformation* Richard Kelly, 2022-03-17 This

book is a practical guide for business professionals to develop and improve business intelligence and collective decision making within their organisation. It proposes a progressive reconfiguration of the traditional business operating system using a nature inspired framework called swarm facilitation that enables and facilitates collective decision making. Organisations have followed the same rigid formula of problem solving and decision making for over 100 years. It is dominated by centralised governance and pyramid decision making. Such an approach is no longer fit for purpose in an environment of employee disengagement, artificial intelligence, AI superintelligence and Covid 19 fallout. By the end of this book, readers will be able to solve organisational problems and challenges collectively using swarm intelligence, upgrade and future proof business operating systems to reflect a more collective decision making approach fit for the new connected economy and Industry 4.0, embrace mindset quotients that support people working in a more networked, self-organising and collective environment. The book is important reading for leaders and managers who are focused on building organisational capital and engagement and gaining value from the emerging technology by evolving their business operating system into a digital ecosystem as part of an ongoing digital transformation strategy. It will also appeal to experts working in the field of organisational change and development both within the organisation and as consultants. *Hack Your Success with AI*

Santiago Ricci, 2025-02-09. The world has already changed. AI is not the future, it's the present. And if you're not using it now, someone else is leaving you behind. The new millionaires don't work harder. They work smarter. In *Hack Your Success with AI*, Santiago Ricci reveals how to leverage AI to multiply your income, automate your business and unlock financial freedom. How AI is reshaping the world and why you need to adapt now. Tools and AI strategies you can apply today, no coding required. How to generate passive income and scale effortlessly. The key to stop competing with AI and start using it to your advantage. AI is rewriting the rules of success. The only question is: will you use it to win or will you let it replace you? Stop waiting. The revolution has already begun. Take control before it's too late. **MC Microsoft Certified Azure AI Fundamentals Study**
