Cleland,2025-08-12 Beat the Bots offers science based creativity techniques that guide you through the writing

process to unlock your imagination and create compelling stories that resonate with emotional truth in ways AI can't match. Even though artificial intelligence is based on a technology called machine learning, computers can't learn to be creative, but you can. This book will show you the way AI is, by definition, derivative, not creative. It can't bring rational judgment to determine the quality or value of its work. When you bring those capabilities to your writing, your stories will touch readers' hearts and minds. Just as real food is better for us than processed food and actual social interactions are more meaningful than social media, when it comes to writing your story, artificial intelligence can't replicate your individual human intelligence, imagination, and sensibility. Technical wizardry can't tell your story. Only you can do that. Your uniqueness is what separates you from a chatbot and explains why you can't be replaced by an algorithm. You'll succeed because you're human, not in spite of it. Through engaging FAQs, invaluable Pro Tips, and AI Weighs In revelations, you'll be able to apply the writing lessons and creativity tactics to all aspects of storytelling, bringing your distinctive vision and voice to your projects in ways AI simply can't. Thought-provoking science-based guided exercises challenge you to apply each chapter's lessons to your own writing. Whether you're writing a novel, literary nonfiction, or a memoir, you'll be able to write stories that are fresh and compelling, your stories, and those are the books that publishers want and readers crave. That's how you'll beat the bots.

Write Blog Posts Readers Love Henri Junttila, 2017-11-27 You don't need a magic formula to write blog posts that readers love. You already have what you need. All you have to do is tap into it. 101 Ways to Market Your Book Using AI Sam Choo, What if marketing your book didn't have to be overwhelming, expensive, or time-consuming? What if AI could help you do it faster, smarter, and with less stress? Whether you're a first-time author, self-published writer, coach, or content creator, 101 Ways to Market Your Book Using AI gives you the exact strategies you need to turn your book into a bestseller or, at least, a book that actually gets read. Inside, you'll learn how to use ChatGPT, Canva, Notion, and other AI tools to create content, emails, and visuals in minutes. Plan a complete launch or relaunch without a team. Repurpose your book into a course, podcast, or digital product empire. Write emails and social media posts that feel personal but are powered by AI. Build a system that runs in the background while you get back to writing. This isn't theory. It's a playbook. You don't need a marketing degree. You don't need a big budget. You just need the right tools, the right prompts, and the right mindset. Let this be your quiet assistant, your action plan, and your reminder. You already wrote the book. Now it's time the world finds it.
