Neutrosophic Stance Detection and fsQCA-Based Necessary Condition Analysis for Causal Hypothesis Assessment in AI-Enhanced Learning Jesús Rafael

Hechavarría-Hernández, Maikel Y. Leyva Vazquez, Florentin Smarandache, This study addresses the ambiguities in empirical findings on artificial intelligence AI in education by proposing a new methodological framework that combines neutrosophic stance detection and Fuzzy Set Qualitative Comparative Analysis fsQCA This approach explicitly models truth indeterminacy and falsity allowing for the synthesis of contradictory research The authors evaluated four causal hypotheses related to AI based learning using a survey of 24 university participants to explore the necessary conditions for perceived learning improvements The results indicate that the digital divide is a perfectly necessary condition for effective AI enhanced learning The findings also reveal that AI feedback and AI platform use are necessary though not sufficient for learning improvements but generate significant uncertainty The study concludes that the neutrosophic fsQCA framework is a viable technique for synthesizing ambiguous findings and provides empirical evidence that digital equity and high quality design are crucial for the successful integration of AI in education

The Art of Making Decisions Under Uncertainty Charles Yoe,2025-09-04 Uncertainty is a part of every decision we make from the everyday to the high stakes from personal choices to professional strategy The Art of Making Decisions Under Uncertainty offers a clear practical approach to dealing with the unknown without getting stuck or overwhelmed Rather than treating uncertainty as a barrier this book invites readers to see it as a constant companion something to work with not work against Drawing on proven tools real world examples and a wealth of practical insight it shows how to make thoughtful informed decisions even when information is incomplete priorities are competing and the path forward feels anything but clear This is not a theory heavy treatise It s a textbook guide for real people facing real decisions Grounded in decision science but written for a broad audience it bridges the gap between technical complexity and everyday practicality Whether you re leading a team managing risk shaping policy or simply trying

to make better personal choices this book meets you where you are with tools that work language that makes sense and encouragement to move forward with clarity and confidence Inside you ll find Straightforward frameworks to help you recognize and manage different types of uncertainty Practical tools and techniques you can use right away to make sound decisions in fast moving or high pressure situations Case studies and examples that bring the concepts to life and show how they apply in work leadership and daily life Fresh perspectives on failure bias and risk helping you not only avoid common pitfalls but turn setbacks into sources of insight If you ve ever hesitated at a crossroads second guessed a big decision or wished for more clarity in a world that rarely offers it this book is for you The Art of Making Decisions Under Uncertainty is your companion in making better choices when certainty is out of reach but a good decision is still within your grasp
