Stephanie Smith Budhai, Marie K. Heath, 2025-09-08

A practical guide for teachers and students navigating the complicated intersection of artificial intelligence education and justice

Artificial intelligence is rapidly integrating into today s classrooms but unlike other new technologies AI has the potential to harm making it difficult to take advantage of its benefits

AI s reliance on existing data and knowledge systems means Black queer those with disabilities and other marginalized students are at greater risk of being harmed by built in limitations and bias

Budhai and Heath show how to circumvent if not actively resist such harms as machine learning NLPs LLMS and GenAI enter the classroom with practical examples rooted in culturally sustaining abolitionist and fugitive pedagogies across disciplines

Their practical guide creatively answers the concerns of educators committed to forward thinking yet fair instruction and the needs of students eager to use AI for just ends

*Critical AI in K 12 Classrooms* meets the challenges of a key STEM technology with an eye toward cultivating a more just world
