ELIZA is a mock Rogerian psychotherapist.
The original program was described by Joseph Weizenbaum in 1966.
This implementation by Norbert Landsteiner 2003.

ELIZA: Is something troubling you ?
YOU:  Men are all alike.
ELIZA: What is the connection, do you suppose ?
YOU:  They're always bugging us about something or other.
ELIZA: Can you think of a specific example ?

based teaching and learning during the Covid 19 pandemic as a potential alternative to traditional classroom based learning. It presents a collection of theories, practices and case studies from across the globe and covers different aspects of education from a multidisciplinary perspective. While focusing on the various opportunities that surfaced while carrying out innovative experiments in the online learning space, the book discusses pedagogical challenges and the need for a shift in teaching pedagogy towards online learning. It outlines the existing learning theories, reasons behind their failure, and new theories that emerged to fill the need for new methods for delivery of content and pedagogy. The book discusses the issues faced by stakeholders including institute administrators, students and teachers to prepare for this new method of teaching and learning. It highlights the role of virtual laboratories in supplementing the needs of students in the remote learning environment. The book also discusses the role and impact of social media as a powerful tool of learning and educational communication. This book will be of interest to teachers, students and researchers of education, higher education, digital education, information technology, educational psychology and media studies. It will also be useful for courses on e-learning, educationalists, policymakers, educational institutions, online education centres and practitioners working in the related areas.

*TOURISM AND HOTEL TECHNOLOGIES* Stanislav Ivanov, 2023-02-15. The report focuses on some of the digital technologies in tourism and hospitality, namely digital displays, kiosks, mobile applications, smart appliances, intelligent automation, chatbots, biometric technologies, voice-controlled virtual assistants, virtual and augmented reality, drones, robots and the internet of things. It discusses the scope of technologies and the areas of their application. From the perspective of tourists, it looks at technologies they could use during the pre-trip, trip and post-trip stages of their travel. From the perspective of tourism and hospitality companies, it looks at technologies that could be incorporated into the four functional areas of the companies: operations, human resource management, marketing and finance, and outlines the role of technology in each of them. The report critically evaluates the factors that determine the choice of a technological solution, namely technology-related, task-related, economic, company-related, customer-related, employee-related, partner-related, competitive and macroenvironmental factors. Additionally, the report delves deeper into the specific digital technologies and discusses their characteristics, advantages, disadvantages and application in the tourism and hospitality context. Finally, a list of exhibitions on digital technologies for tourism and hospitality companies is provided to help managers in their investment decisions.
