*Building Intelligent Applications with Generative AI* Yattish Ramhorry, 2024-08-22

**DESCRIPTION**

*Building Intelligent Applications with Generative AI* is a comprehensive guide that unlocks the power of generative AI for building cutting edge applications This book covers a wide range of use cases and practical examples from text generation and conversational agents to creative media generation and code completion These examples are designed to help you capitalize on the potential of generative AI in your applications Through clear explanations step by step tutorials and real world case studies you will learn how to prepare data and train generative AI models You will also explore different generative AI techniques including large language models like GPT 4 ChatGPT Llama 2 and Google s Gemini to understand how they can be applied in various domains such as content generation virtual assistants and code generation With a focus on practical implementation this book also examines ethical considerations best practices and future trends in generative AI Further this book concludes by exploring ethical considerations and best practices for building responsible GAI applications ensuring you are harnessing this technology for good By the end of this book you will be well equipped to leverage the power of GAI to build intelligent applications and unleash your creativity in innovative ways

**KEY FEATURES**

- Learn the fundamentals of generative AI and the practical usage of prompt engineering
- Gain hands on experience in building generative AI applications
- Learn to use tools like LangChain LangSmith and FlowiseAI to create intelligent applications and AI chatbots

**WHAT YOU WILL LEARN**

- Understand generative AI GAI and large language models LLMs
- Explore real world GAI applications across industries
- Build intelligent applications with the ChatGPT API
- Explore retrieval augmented generation with LangChain and Gemini Pro
- Create chatbots with LangChain and Streamlit for data retrieval

**WHO THIS BOOK IS FOR**

This book is for developers data scientists AI practitioners and tech enthusiasts who are interested in leveraging generative AI techniques to build intelligent applications across various domains
