The New Age of Sexism Laura Bates, 2025-09-09 Misogyny is being hardwired into our future. Can we stop it? We like to believe we're moving closer to equality, riding the wave of technological progress into a brighter, fairer future. But beneath the glossy surface of innovation lies a chilling truth: new technologies are not just failing to solve age-old inequalities; they're deepening them. In *The New Age of Sexism*, acclaimed author and activist Laura Bates exposes how misogyny is being coded into the very fabric of our future. From the biases embedded in artificial intelligence to the alarming rise of sex robots and the toxic dynamics of the metaverse, Bates takes readers on a shocking journey into a world where technology is weaponized against women. This isn't a dystopian warning about what might happen; it's a harrowing account of what's happening now and the dangers we face if we don't act. With clarity and urgency, Bates reveals how these advancements are dragging society backward, reinforcing harmful stereotypes and jeopardizing decades of progress in the fight for gender equality. Eye-opening and empowering, *The New Age of Sexism* is a rallying cry for awareness and action in a world where the battle for equality has entered a dangerous new frontier.
