Evangelicals Travis Warren Cooper,2022-08-02 When it comes to evangelical Christianity the internet is both a refuge and a
 threat It hosts Zoom prayer groups and pornographic videos religious revolutions and silly cat videos Platforms such as social
 media podcasts blogs and digital Bibles all constitute new arenas for debate about social and religious boundaries theological
 and ecclesial orthodoxy and the internet s inherent danger and value In *The Digital Evangelicals* Travis Warren
 Cooper locates evangelicalism as a media event rather than as a coherent religious tradition by focusing on the intertwined
 narratives of evangelical Christianity and emerging digital culture in the United States He focuses on two dominant media
 traditions media sincerity immediate and direct interpersonal communication and media promiscuity communication with the
 primary goal of extending the Christian community regardless of physical distance Cooper whose work is informed by
 ethnographic fieldwork traces these conflicting paradigms from the Protestant Reformation through the rise of the digital

and argues that the tension is culminating in a crisis of evangelical authority What counts as authentic interaction Who has authority over the circulation of information While many studies claim that technology influences religion The Digital Evangelicals reveals how Protestant metaphors and discourses shaped the emergence of the internet and explores what this relationship with global new media means for evangelicalism

Listen Up! Linda W. Braun, 2007 A beginner's guide to podcasting for teachers librarians and school media specialists explains what podcasting is and discusses how to create podcasts as a tool for reaching out to students faculty library patrons and the community
