Work Smart Now Richard Polak,2021-04-20 From one of the top HR specialists in the world comes this much needed guide to help people maximize productivity and increase revenue Whether it s in corporate America or in our own living rooms people are wasting time From the minute we wake up and check our Facebook page or emails before we even crawl out of bed to late at night when we stay up longer than we should watching our favorite show There s a precise moment that falls between working enough hours to be productive and working too many hours yielding a diminishing marginal return The difference between the person able to master this and most Americans that fail miserably at it is quality of life If one continues to work past this moment a negative return will ensue and that negative return produces guilt It lowers the amount of time for recreational activities and spending time with family We ve siloed productivity to our work life however the impact on our personal life is often loss An alarming 39% of workers in high tech companies believe they are depressed as reported by PC Magazine in December 2018 72% of people who have daily stress and anxiety say it interferes with their lives anxiety and stress alone have reduced productivity by 56% More than 80% of people have experienced some form of anxiety stress or depression in the workplace People are spending more time at work than at home or with their

loved ones or if they are at home they are working They are always on As a result of this disparity people are not fully living their lives And the work life balance marketed by some HR consulting firms and employers simply does not work It s all work and no life Studies have also proven that when people are unhappy in their personal lives or careers their productivity goes down and everything and everyone around them suffers This causes a domino effect which trickles into every area of their lives Previous generations used to say Work harder but we ve now learned we must work smarter Polak has practiced and tested his methods in hundreds of opportunities and has been paid millions by the largest corporations in the world to share these tools He feels that every individual and business should have these tools and will share them with us here

Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates?
Huong Hoang Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates

Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything's going remotely companies have become an easier target of cyber attacks
