Making Virtual Reality a Reality Alison Valk, Ximin Mi, Ashley L. Schick, 2023-06-15 Walks readers through the key components of developing library led research and programming that leverages emerging technologies with the goal of engaging students and faculty As educational curricula and research evolve to include advanced technologies libraries must offer programming with these emerging technologies in mind including the use of virtual reality VR and augmented reality AR In this timely guide Valk Mi and Schick present readers with tools for assessing their level of organizational readiness to begin such programs and more importantly how to sustain them with limited budgets expertise and resources Building on their own experiences the authors teach readers how to develop technology rich classes assess student projects and overcome technical hurdles They spotlight this kind of programming as integral to building strategic partnerships in an educational environment Readers will learn how to adapt and design programs or initiatives in which the necessary technologies are rapidly changing not only in higher education institutions but also in schools Worksheets and resources assist readers in reflecting on their own work and developing educational programming to suit their organizational needs

Fast Families, Virtual Children Ben Agger, Beth Anne Shelton, 2016-01-20 The Internet cell phones and other technologies have changed the ways in which people conduct their family lives raise children and navigate the blurry boundary between work and home Private life is colonized by employers teachers corporations family time is taken up by work homework and shopping What it means to be parents and children has changed dramatically This book shows how the nurturance of family has increasingly become a willful radical idea in an era of pervasive technology The authors analyze important trends including the acceleration and attenuation of childhood and offer a children s bill of rights and accompanying parental responsibilities

Virtual Teams Terri R. Kurtzberg, 2014-03-28 To advance in today s workplace requires virtual team skills Most individuals assume their

face to face skills will translate but competency with virtual communication and teamwork requires an entirely new set of skills This book guides readers down the path to success Electronic communication is now embedded in our daily experience as is work involving off site collaborators Virtual communication has become an essential job skill that is critical to individual and group success yet most people just muddle through it without giving it any thought Drawing on decades of scientific research in the fields of psychology organizational behavior and sociology this book explains how to master the art and science of communicating virtually The author first analyzes the subtle but significant changes that result when conversations are moved online providing examples and tips to avoid common pitfalls then discusses how team behavior and decision making can best be guided in this realm Readers will fully understand what makes teams click what inspires trust how to get a team off on the right foot and what steps to take in order to make good collaborative decisions as well as other key topics for virtual teamwork such as best practices for working in the cross cultural environment The book serves as an ideal guide for anyone who participates in or manages a virtual team but is also suitable as a supplemental textbook in a business school course on organizational behavior or business communication
