fundamental change in the way we work where we work how we work and the conditions of work The continued
advancements of smart technology and artificial intelligence globalisation and deregulation can provide a sleek view of the
world of work This paradigm can deliver the opportunity to both control work and provide new challenges in this emerging
virtual and global workplace with 24 7 connectivity as the boundaries of the traditional organisation melt away Throughout
the developed world the notions of work and employment are becoming increasingly separated and for some this will provide
