Manuals for Penitents in Medieval England Krista A. Murchison, 2021 First comprehensive survey of a major genre of medieval English texts its purpose characteristics and reception The bestseller list of medieval England would have included many manuals for penitents works that could teach the public about the process of confession and explain the abstract concept of sin through familiar situations Among these bestselling works were the Manuel des p ch s commonly known through its English translation Handlyng Synne The Speculum Vitae and Chaucer's Parson's Tale This book is the first full length overview of this body of writing and its material and social contexts It shows that while manuals for penitents developed under the Church's control they also became a site of the Church's concern Manuals such as the Compilacion which was addressed to a much broader audience than its English analogue Ancrene Wisse brought learning that had been controlled by the Church into the hands of layfolk and in so doing raised significant concerns over who should have access to knowledge Clerics worried that these manuals might accidentally teach people new sins remind them of old ones or become sites of prurient interest This finding and others explored in this book call for a new awareness of the complications and contradictions inherent in late medieval orthodoxy and reveal plainly that even writing that happened firmly within the Church's control could promote new and complex ways of thinking about religion and the self

Opening Up Middle English Manuscripts Kathryn Kerby-Fulton, Maidie Hilmo, Linda Olson, 2024-05-15 Deeply informed

and lavishly illustrated *Opening Up Middle English Manuscripts* is a comprehensive introduction to the modern study of Middle English manuscripts. It is intended for students and scholars who are familiar with some of the major Middle English literary works such as *The Canterbury Tales*, *Gawain and the Green Knight*, *Piers Plowman* and the romances, mystical works or cycle plays but who may not know much about the surviving manuscripts. The book approaches these texts in a way that takes into account the whole manuscript or codex, its textual and visual contents, physical state, readership and cultural history. *Opening Up Middle English Manuscripts* also explores the function of illustrations in fashioning audience response to particular authors and their texts over the course of the fourteenth and fifteenth centuries. Kathryn Kerby-Fulton, Linda Olson and Maidie Hilmo, scholars at the forefront of the modern study of Middle English manuscripts, focus on the writers most often taught in Middle English courses, including Geoffrey Chaucer, William Langland, the *Gawain* poet, Thomas Hoccleve, Julian of Norwich and Margery Kempe, highlighting the specific issues that shaped literary production in late medieval England. Among the topics they address are the rise of the English language, literacy, social conditions of authorship, early instances of the Alliterative Revival, women and book production, nuns, libraries, patronage, household books, religious and political trends and attempts at revisionism and censorship. As of 2024, *Opening Up Middle English Manuscripts* is available as an ebook, ideal for instructors teaching the book in courses. The fully searchable PDF ebook version is available through most digital textbook platforms and library ebook aggregation platforms.
