Innovation Navigator returns with a revised edition and a fresh look at the shifting landscape of modern innovation. With the rise of artificial intelligence, digital design, and collaborative platforms, organizations face new opportunities and challenges in managing their innovation processes. Renowned entrepreneurial academics Tucker Marion and Sebastian Fixson present a comprehensive update to their groundbreaking guide, including new chapters on AI's role in enhancing creativity, decision making, and product development; new metrics for managing innovation; and thoughts on employee skill development. The second edition of *The Innovation Navigator* also features updated and illustrative case studies of companies such as Microsoft, Ford, Merck, and OpenAI. This updated edition provides practical frameworks for applying AI across the original four key innovation modes: specialist, venture, community, and network, and offers insights on adopting multimodal strategies to stay ahead in today's competitive environment. Whether you're a corporate leader or a novice entrepreneur, this book will equip you with the tools to navigate the challenges of AI-driven digital transformation and seize new opportunities in a powerfully evolving market.

Designing for Sex and Gender Equity Isabel Prochner, 2023-12-19. Drawing on original designer interviews, this book explores how design interventions can and do support sex and gender equity and what barriers still stand in the way. Isabel Prochner not only brings attention to sex and gender problems related to design artifacts but also provides a unique overview of creative design responses to these issues. The case studies and designer interviews provide new information about how designers can address these issues and the challenges they may encounter, whether that's a lack of anthropometric data, trouble finding investment and business support, or even public resistance. Prochner brings together primary and secondary research and the most contemporary theories on sex, gender, and design. This book will be of interest to scholars working in design studies, sex and gender studies, social design, design for health, industrial design, product design, fashion design, and interaction design. *Newsline*, 1997.
