Notorious Noir Girls Pin-Up Eva Quim, 2025-04-05 Big Beautiful Girls in Trouble Fifty seven full page high resolution renderings hand repainted and retouched AI output featuring a bevy of fictional busty beauties in all their retro movie star glory With 10 additional pages of marketing shots for the fictional film Eight Deadly Words and Fatally Blonde directed by the famous fictional director Rusty Mayer who is in no way my fictional version of Russ Meyers No child faces No six fingered or three fingered hands From the books introduction I ve been working with AI image generation for a few years now The tech gets better easier to use but censorship makes some kinds of bodies nearly impossible to generate These bodies actually exist in the real world there are dozens of flesh and blood girls on instagram that look a lot like my girls but the AI censors consider a certain kind of woman s body to be in poor taste The hell with them Here s to poor taste I ve retired my first Noir Pin up book though its contents are still on sale in my 365 image omnibus on sale here This new take showcases generative AI s rapid evolution as well as my own So here s to the big beautiful girls of noir women really but most like being called girls How do I know this Because they re mine and I know how they think I made them up For you Enjoy

Upscale ,1997 ASTROZON Eva Quim, 2025-04-06 They re like Amazons but in SPAAAAAAACE The images speak for themselves I think But if you are interested in how I made them and my thoughts on this tech read on These aren t photos They really really aren t So to be perfectly clear none of these images are photographs There are no individual human models involved in the making of these images None of these images reproduce copyrighted photographs or illustrations no image search reveals a match for any of these images because while I have used AI to assist in their creation there are no raw AI images in this book I begin with a customized Stable Diffusion model SDXL2 based a checkpoint merge of several models and my own artwork I generate a thousand images at a whack on my own computer

using open source Stable Diffusion software Then the hard part which is curation finding the good ones the one out of a hundred worth retouching and repairing This is half of what you are paying for The other half is the laborious Photoshop repainting and recoloring repainting oh so many hands compositing correcting anatomy through judicious liquefaction and obsessive noodling and a lot of adjustments small and large Puppet warp Background replacement In painting with Adobe s image generation to remove stupid AI crap repair eyes fingernails background elements I work on their expressions until the images come alive spending a lot of time on the eyes The raw AI images never work for me until I tweak them No copyrighted franchise characters or living artist prompts were used in the making of these images Repeat These are not photographs These are also not raw AI images all have substantially reworked in various ways At some point this means the images may have become copyrightable derivative works if not this content may prove to be public domain only a court can decide decisions have gone either way On a case by case basis I see them as legitimate protected derivative works but I don t really care one way or the other I m doing this work sharing it making something unique I d like to recoup my time investment on these images at a professional rate as I am a professional graphic artist Even if all I m doing is polishing public domain content there s a ton of work here And it s hard to see how stuff rendered from my sketches can be public domain At any rate I hope you enjoy the images

[CAMA Mystery Sampler Pin-Ups](#) Eva Quim, 2025-04-29 The CAMA Mystery Backstory It starts in the mid sixties at a Hollywood insider s party at Bohemian Grove Four Great Men Gerry Anderson Irwin Allen Russ Meyer and Roger Corman get into a heated argument with Gloria Steinem about exploitation films featuring female leads Were they empowering or objectifying The four men say empowering Steinem says objectifying Finally frustrated by their refusal to grasp feminism she storms off with Jane Fonda and Warren Beatty The Great Men stay behind and talk all night They may or may not have dropped acid an experimental LSD isomer not 25 but 69 courtesy of Timothy Leary In a collective creative frenzy they brainstorm loglines show ideas and pitches But by morning they abandon it all Too risky too weird too hard to sell Why Because every show starred women The leads the experts the commanders Men were assistants secretaries love interests Pretty feminist right But the women They were all classic Russ Meyer beauties in outrageous sci fi costumes Just like Star Trek miniskirts UFO s Moon Girls purple wigs and silver jumpsuits and Diana Rigg s Avenger s cat suits CAMA was going to be empowering and objectifying Maybe one was the Trojan horse for the other Who can say It all feels firmly morally gray to me Russ s Faster Pussycat Kill Kill was arguably the genre s first film That s one reason he s one of the Four Great Men behind the story But It just won t sell Corman said in the cold clear light of day when everyone was sober And that was that Enter their assistants Rusty Mayer Allan Irwin Andy Garrison and Rupert Coreman with an e not an a These four had definitely done the weird LSD 69 They d been sitting in the darkened room listening to the debate between Steinem Fonda and the great Men quietly taking notes all night long Fun fact Allen Goldman had changed his name to Allan Irwin just to get close to Irwin Allen and it worked CAMA was going to be short for Coreman Allen Meyer Anderson but the

assistants adopted it even though it no longer quite fit Irwin's inverted name wrecks the acronym it should be CIMA Using it anyway was as it turned out a very CAMA thing to do Leary loved the whole idea of thing Upset the Great Men weren't going to pursue the female lead projects he dragged Rusty Mayer through a secret passage into a hidden room where a somber looking long finger nailed man sat with Kleenex boxes on his feet It was Howard Hughes With great difficulty thanks to those three inch fingernails Hughes wrote Mayer a check for 20 million Memo line To make sexy sci fi movies And so footloose and fancy free and incredibly well funded the Not So Fabulous Four were ready to try to make history For seven years they cranked out weird brilliant female led genre shows and B movies that played briefly in drive ins and art house cinemas most of which soon pivoted to porn The CAMA story ends in the bankruptcy of the four directors for a variety of blunders all the completed work is lost or destroyed in a series of freak accidents and targeted legal actions All that remains are clips here and there fragments of bootlegs production notes and recollections Still reading Okay That was all made up I wrote the texts AI helped me make the images These aren't photographs There are no individual human models involved in the making of these images None of these images reproduce copyrighted photographs or illustrations no image search reveals a match for any of these images because while I have used AI to assist in their creation there are no raw AI images in this book I begin with a customized Stable Diffusion model SDXL2 based a checkpoint merge of several models and my own artwork I generate a thousand images at a whack on my own computer using open source Stable Diffusion software Then the hard part which is curation finding the good ones the one out of a hundred worth working on longer This is half of what you are paying for The other half is the laborious Photoshop repainting and recoloring repainting oh so many hands compositing correcting anatomy through judicious liquefaction and obsessive noodling and a lot of adjustments small and large Puppet warp Background replacement In painting with Adobe's image generation to remove stupid AI crap repair eyes fingernails background elements I work on their expressions until the images come alive spending a lot of time on the eyes The raw AI images never work for me until I tweak them No copyrighted franchise characters or living artist prompts were used in the making of these images They represent a collective effort the prompts a tiny part really the artists work in the models and the curation design and montage and retouching on top of that At this point I'm deep in the hole on this project I've made almost nothing It's a labor of love which I hope you share with me

Busty B-Movie Beauties Pin Up Eva Quim, These aren't photos They really really aren't These images are mostly AI generated and not only that there are no individual human beings involved in creating this content No copyrighted franchise characters or living artist prompts were invoked in their creation None of this content reproduces copyrighted photographs or illustrations no image search reveals a match for any of them because while I have used AI to assist in their creation there are no raw AI images in this book I begin with a customized Stable Diffusion model SDXL2 based a checkpoint merge of several models and my own artwork I generate a thousand images at a whack on my own computer using open source Stable Diffusion software Then the hardest part which is curation finding the good ones

the one out of a hundred worth finishing Next comes the laborious Photoshop repainting and recoloring repainting oh so many hands compositing correcting anatomy through judicious liquefaction and obsessive noodling and a lot of adjustments small and large Puppet warp Background replacement In painting with Adobe s image generation to remove stupid AI crap repair eyes fingernails background elements I edit their expressions until the images come alive spending a lot of time on the eyes The raw AI images never work for me until I tweak them At some point this means the images may have become copyrightable derivative works if not this content may prove to be public domain only a court can decide decisions have gone either way On a case by case basis I don t care one way or the other I m doing this work sharing it bashing together something unique I m very unlikely to make my professional design rate on this stuff It s a labor of love so far anyway At any rate I hope you enjoy my pin ups

Code Dependent Madhumita Murgia, 2024-06-18 Shortlisted for the Women s Prize for Non Fiction Named a best book of the year by Esquire The Spectator and Publishers Weekly A riveting story of what it means to be human in a world changed by artificial intelligence revealing the perils and inequities of our growing reliance on automated decision making On the surface a British poet an UberEats courier in Pittsburgh an Indian doctor and a Chinese activist in exile have nothing in common But they are in fact linked by a profound common experience unexpected encounters with artificial intelligence In *Code Dependent* Murgia shows how automated systems are reshaping our lives all over the world from technology that marks children as future criminals to an app that is helping to give diagnoses to a remote tribal community AI has already infiltrated our day to day through language generating chatbots like ChatGPT and social media But it s also affecting us in more insidious ways It touches everything from our interpersonal relationships to our kids education work finances public services and even our human rights By highlighting the voices of ordinary people in places far removed from the cozy enclave of Silicon Valley *Code Dependent* explores the impact of a set of powerful flawed and often exploitative technologies on individuals communities and our wider society Murgia exposes how AI can strip away our collective and individual sense of agency and shatter our illusion of free will The ways in which algorithms and their effects are governed over the coming years will profoundly impact us all Yet we can t agree on a common path forward We cannot decide what preferences and morals we want to encode in these entities or what controls we may want to impose on them And thus we are collectively relinquishing our moral authority to machines In *Code Dependent* Murgia not only sheds light on this chilling phenomenon but also charts a path of resistance AI is already changing what it means to be human in ways large and small and Murgia reveals what could happen if we fail to reclaim our humanity

Warriors of Art Yumi Yamaguchi, 2007 Recently the West has been inundated by a steady flow of images from manga anime and the video games that are a key part of today s Japanese visual culture At the same time Japanese contemporary artists are gaining a higher profile overseas many Westerners are already familiar with Takashi Murakami s brightly colored cartoonlike characters or with Junko Mizuno s grotesque Lolita style girls Perhaps less familiar are the absurd fighting machines of Kenji Yanobe the many disguises of

Tomoko Sawada or the grotesque fairytale landscapes of Tomoko Konoike *Warriors of Art* features the work of forty of the latest and most relevant contemporary Japanese artists from painters and sculptors to photographers and performance artists with lavish full color spreads of their key works Author Yumi Yamaguchi offers an insightful introduction to the main themes of each artist and builds up a fascinating portrait of the society that has given birth to them a Japan that still bears the scars of atomic destruction a Japan with a penchant for the cute and the childish a Japan whose manga and anime industries have come to dominate the world *Warriors of Art* takes its title from a phrase used to describe Taro Okamoto 1911-1996 perhaps the first truly influential contemporary artist to emerge in postwar Japan who fought to bring modern art to a wider audience Following in Okamoto's footsteps the forty artists featured in this book are a new generation of warriors attacking our senses with a shocking mix of the cute the grotesque the sexy and the violent forcing us to sit up and take notice of their vision of Japan
