in engaging learners thereby exploring the key themes of access engagement and equity in the field. Discussing themes such as academic burnout, cultural competence and emotional regulation strategies in challenging educational contexts, this novel volume gives voice to field experiences encountered in countries such as Malaysia, Indonesia, Oman, Vietnam, China and Iran. Chapters demonstrate how a lack of access to reliable internet connectivity and a shortage of digital devices, especially in rural areas, compound limited opportunities for students already facing educational inequalities, presenting the innovative and creative ways English educators are responding to these situations. Across interviews and qualitative studies, the book demonstrates that issues surrounding engagement with access to and equity within the remote and online educational context are wider and longer lasting than the recent pandemic period itself and are at the forefront of challenges facing these regions today. Highlighting English educators' resilience, perseverance and creativity in challenging circumstances, the book will be of interest to researchers, scholars and postgraduate students in open and distance education, eLearning, bilingualism, ESL and distribution of technology in educational settings.
