sound and affect are influenced by factors as diverse as race class gender and social and political experience Examining these factors is key to the project which gathers contributions from a cross disciplinary roster of scholars including both established as well as a wealth of new voices The essays are grouped thematically into sections that move from politics and ethics to reflections on pre and post human musicking to the notions of affective listening and music temporalities to are examination of historical understandings of music and affect This agenda setting collection will prove indispensable to anyone interested in innovative approaches to the study of sound and its many intersection with affect and emotions
