Routledge Handbook of Jewish Ritual and Practice Oliver Leaman, 2022-07-08 Ritual

and practice are some of the most defining features of religion linked with its central beliefs. Discussing the wide range of Jewish ritual and practice, this volume provides a contemporary guide to this significant aspect of religious life and experience. Drawing on a wide range of disciplines, this volume describes not only what takes place but the reasons behind this and the implications both the theory and practice have for our understanding of Judaism. Organized in terms of texts, periods, practices, languages, and relationships with the other, the book includes accounts of prayer, food, history, synagogues, and the various legal and ideological debates that exist within Judaism, with the focus on how they influence practice. Coming at a time of renewed interest in the role of the body in religion, this book aims to bring the theoretical and scriptural issues which arise in this area of Jewish life and culture up to date. This volume is aimed at students and researchers working in Jewish studies specifically and religious studies in general. Designed to be helpful to those on courses in relevant areas, especially in the United States, this book includes substantial bibliographical material. **Practical Winery/vineyard**, 1991

Hacking the Boardroom Ralph Ward, 2025-09-01. It's scary in the boardroom. Global board members now face punishing hands on oversight, demands for risk, technology, liability, diversity, and sustainability. Yet the board of directors system, our universal governance model, was never designed for such a demanding tactical role. Board members urgently need solid tips, tools, and advice to make this exploding governance transition survivable. Ralph Ward's new book gathers these first-hand, best practice boardroom hacks from around the world. Intelligence that boards must have now to do a better oversight job with less time, less effort, and fewer legal dangers. These are how-to insights from front-line board members, CEOs, corporate staffers, top consultants, and legal advisors. Such intelligence is learned the hard way through trial and error in most boardrooms. Now readers can discover this valuable boardsmanship insight collected in a single volume. Topics include: What are the hottest new demands on boards: tech, oversight, risk, ESG, etc., and how are boards managing them? How on earth does a director absorb the huge amount of data, reports, and research required for governance now? How are board committees taking on the heavy lifting of oversight and blueprints for committee management? How are smart boards and staff turning technology, online board portals, and meetings, and AI into practical tools to shake up meetings? What's sticky behind boardroom doors? Leadership, liability, personal, and process flashpoints bring the most danger, and how are directors resolving them?

Online Teaching at Its Best Linda B. Nilson, Ludwika A. Goodson, 2017-11-08. Bring pedagogy and cognitive science to online learning environments. *Online Teaching at Its Best: A Merger of Instructional Design with Teaching and Learning Research* is the scholarly resource for online learning that faculty, instructional designers, and administrators have long been awaiting. Over 70 percent of degree-granting institutions offer online classes, and while technical resources abound, the courses often fall short of integrating the best practices in online pedagogy, even if they comply with online course design standards. Typically, these standards omit the best practices in teaching and learning and the principles from cognitive science, leaving students struggling to keep the pace, understand the material, and fulfill their true potential as learners. This

book fills the gap providing evidence based practices for online teaching online course design and online student motivation integrated with pedagogical and cognitive science to help you build the distance learning courses and programs your students deserve As more and more students opt for distance learning it s up to designers and instructors to rethink traditional methods and learn to work more effectively within the online learning environment and up to administrators to provide the needed leadership Online Teaching at Its Best provides practical real world advice grounded in educational science to help online instructors instructional designers and administrators deliver an exceptional learning experience Adopt new pedagogical techniques designed specifically for online learning environments Ensure strong course alignment and effective student learning for online classes Increase student retention build necessary support structures and train faculty more effectively Integrate research based course design and cognitive psychology into graduate or undergraduate programs Distance is no barrier to a great education what do stand in the way are inadequate online course design and implementation and deficient faculty training and support all of which administrators can mitigate Online Teaching at Its Best will help you ensure that your online classes measure up to the rigor and quality of excellence in teaching and assessment build in the personal touch for developing a learning community and equip your students to succeed in the next challenge
