Linking Theory and Practice of Digital Libraries Omar Alonso, Helena Cousijn, Gianmaria Silvello, Mónica Marrero, Carla Teixeira Lopes, Stefano Marchesin, 2023-09-21 This book constitutes the refereed proceedings of the 27th International Conference on Linking Theory and Practice of Digital Libraries TPDL 2023 held in Zadar Croatia during September 26-29, 2023. The 13 full papers and 17 short papers included in this book were carefully reviewed and selected from 69 submissions. They were organized in topical sections as follows: Applications and digital library systems; data citation and citation analysis; discovering science; monitoring and publishing science; knowledge creation; Human-Computer Interaction; digital humanities and digital cultural heritage. Science Education in Theory and Practice Ben Akpan, Teresa J. Kennedy, 2025-04-26 This book addresses the critical role of science education in the context of global growth and development, emphasizing its significance in the advancement of societal progress. The book identifies and explores the lack of comprehensive resources, compiling diverse learning theories and their practical applications in science teaching. Tailored for a global audience, it bridges the knowledge gap with a narrative genre offering a cohesive exploration of fundamental theories and applications. With contributors from 14 countries, this edition goes beyond its predecessor, delivering updated insights across chapters in research pedagogy and educational theory. Each chapter enriches the reader's experience with exercises and reflections, fostering deeper engagement. Notably, the second edition responds to the evolving educational landscape, introducing Chapter 28 on Virtual Technology in the wake of the COVID-19 pandemic. This book is an invaluable resource for students, educators, and researchers interested in science education, providing a comprehensive exploration of updated theories and practices. Ethics and Integrity in Education (Practice) Mary Davis, Cláudia Baptista, 2025-07-30 This book offers a collection of effective and insightful practices in academic integrity through diverse perspectives and global contexts. Contributors ranging from faculty to academic integrity leads, academic conduct officers, student support staff, independent researchers, and students in nine different countries share their collective knowledge and understanding based on their roles, work, and study in academic integrity. The main themes of the chapters focus on innovation and collaboration, community and culture, stakeholders in academic integrity, and awareness of breaches and ethics. Within these themes, the contributors explore Artificial Intelligence tools, inclusion, collaboration with students, networks, publishing, setting up research offices, student champions at high school and university, and academic conduct breaches. The chapters end with calls to action and recommendations for readers to incorporate into their practice. In these ways, the book aims to raise awareness of important issues in academic integrity contexts and support the continued development of practice. Responsible Artificial Intelligence: Re-engineering the Global Public Health Ecosystem Dominique J. Monlezun, 2024-06-07 Artificial intelligence: Re-engineering the Global Public Health Ecosystem.
