Mastering AI Jeremy Kahn, 2025-07-08 A Fortune magazine journalist draws on his expertise and extensive contacts among the companies and scientists at the forefront of artificial intelligence to offer dramatic predictions of AI's impact over the next decade from reshaping our economy and the way we work learn and create to unknitting our social fabric jeopardizing our democracy and fundamentally altering the way we think Within the next five years Jeremy Kahn predicts AI will disrupt almost every industry and enterprise with vastly increased efficiency and productivity It will restructure the workforce making AI copilots a must for every knowledge worker It will revamp education meaning children around the world can have personal portable tutors It will revolutionize health care making individualized targeted pharmaceuticals more affordable It will compel us to reimagine how we make art compose music and write and publish books The potential of generative AI to extend our skills talents and creativity as humans is undeniably exciting and promising But while this new technology has a bright future it also casts a dark and fearful shadow AI will provoke pervasive disruptive potentially devastating knock on effects Leveraging his unrivaled access to the leaders scientists futurists and others who are making AI a reality Kahn will argue that if not carefully designed and vigilantly regulated AI will deepen income inequality depressing wages while imposing winner take all markets across much of the economy AI risks undermining democracy as truth is overtaken by misinformation racial bias and harmful stereotypes Continuing a process begun by the internet AI will rewire our brains likely inhibiting our ability to think critically to remember and even to get along with one another unless we all take decisive action to prevent this from happening Much as Michael Lewis's classic *The New New Thing* offered a prescient insightful and eminently readable account of life inside the dot com bubble *Mastering AI* delivers much needed guidance for anyone eager to understand the AI boom and what comes next *Making Media Futures* Phillip H. Roth, Ana María Guzmán Olmos, Alin Olteanu, Stefan Bösch, 2025-04-22 *Making Media Futures* offers a multi-perspectival exploration of how imaginaries and knowledge of the future are constructed in and through various media The volume addresses the discursive dimensions of imaginaries and future visions as well as the impact of technological material and cultural conditions on the propagation of future discourses through media Providing both theoretically detailed and empirically rich investigations the contributions offer a wide range of cases spanning the century from the end of World War II until today and looking at examples from the Southern Hemisphere as well as the Global North Bringing together scholars in media studies science and technology studies STS and the history and philosophy of technology the chapters discuss future visions and imaginations of quantum computing the uncertainty and impact of AI-based text-to-image generation the ideology behind 5G telecommunication standards imaginaries of the Internet of Things transmedia strategies in global and local climate protests how broadcast radio was implicated in the evangelical mission imaginary and how early visions of automating scholarly information management shaped standards and ideals of academia The volume thus complements existing

approaches and analytical frameworks for the study of imaginaries and futures discourses with perspectives that are sensitive to the plurality of media specific conditions and technologies The book will interest students and scholars working in media studies STS history and philosophy as well as at the intersection of engineering humanities and social sciences on matters such as sustainability ethics and responsible innovation
