OECD,2021-06-22 COVID 19 has accelerated the digitalisation of working and social interactions Global lockdowns to contain the pandemic have forced firms and workers to perform a wide range of daily functions through virtual means This has led to greater uptake and acceptance of remote working which will likely remain in the post pandemic scenario New Office

Information Technology Richard J. Long,2018-03-26 This book originally published in 1987 evaluates the human and managerial implications of new office information technology based on the actual experiences of organisations using the new technology A variety of issues are examined including those centred on the role of the manager productivity unemployment physical and mental health Major emphasis is placed on describing and discussing the implementation of new technology and ways of utilization which maximise benefits *Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates?* Huong Hoang Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and

Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren't enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany's 100% remote job market In a fast changing world digital transformation has become an inevitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany's weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cybersecurity When everything's going remotely companies have become an easier target of cyber attacks

New Approaches to CSR, Sustainability and Accountability, Volume III Kıymet Tunca Çalıyurt, 2022-11-02 This book continues the discussion in the first two volumes on the challenges that organizations face in order to implement sustainability ethics and effective corporate governance all of which are important elements of standing out from other companies Examining the background of the New European Consensus on development with the new guiding motto Our World Our Dignity Our Future the authors explore how this new legislation on sustainability issues around the world is forcing companies to deal directly with sustainability issues The 2030 Agenda for Sustainable Development 2030 Agenda adopted by the United Nations in September 2015 is the international community's response to global challenges and trends in connection with sustainable development With the Sustainable Development Goals SDGs at its core the 2030 Agenda is a transformative political framework designed to eradicate poverty and achieve sustainable development globally It balances the economic social and environmental dimensions of sustainable development including the key issues of governance and peaceful and inclusive

societies and recognizes the essential interlinkages between its goals and targets i e that they must be implemented as a whole and not selectively The respective chapters in this volume raise a number of questions regarding corporate social responsibility ethics and corporate governance in the face of new technology and new approaches to climate change and sustainability reporting

Handbook of Research on Current Trends in Asian Economics, Business, and Administration Akkaya, Bülent,Jermisittiparsert, Kittisak,Gunsel, Ayse,2021-10-08 Social sciences have always been an important tool that enables human beings to examine and understand society Through social sciences researchers gain understandings of social phenomena and changes by providing commentaries producing explanations and attempting to synthesize a diversity of information sets to formulate theories Since

the concept of change has been the hallmark of the new millennium researchers have witnessed a transformation in every aspect of the modern world at an ever increasing speed particularly in the social facet of human life Ways of thinking that had previously been upheld and taught may therefore no longer be appropriate or effective as tools to understand contemporary phenomena and changes

The Handbook of Research on Current Trends in Asian Economics Business and Administration is a critical reference source that examines different aspects of social sciences management sociology and education to better understand today's society and social life in the Asian context The book identifies trends impacts and implications of disruptive technologies for business and socio economic development as well as strategic advantage on different levels of business and administration Covering topics that include e commerce green management information technology economic growth and distance learning this book is essential for economists academicians government officials policymakers social scientists managers leaders behavioral scientists academicians researchers and students

The Pandemic Paradox Scott Fulford, 2023-05-16 Why most Americans' finances improved during the worst economic contraction since the Great Depression and the policy choices that made this possible In March 2020 economic and social life across the United States came to an abrupt halt as the country tried to slow the spread of COVID 19 In the worst economic contraction since the Great Depression twenty two million people lost their jobs between mid March and mid April of 2020 And yet somehow the finances of most Americans improved during the pandemic savings went up debts went down and fewer people had trouble paying their bills In *The Pandemic Paradox* economist Scott Fulford explains this seeming contradiction describing how the pandemic reshaped the American economy As Americans grappled with remote work essential work and closed schools three massive pandemic relief bills starting with the CARES Act on March 27 2020 managed to protect many of America's most vulnerable Fulford draws from the Consumer Financial Protection Bureau's Making Ends Meet surveys which he helped design to interweave macroeconomic trends in spending saving and debt with stories of individual Americans' economic lives during the pandemic We meet Winona who quit her job to take care of her children Marvin who retired early and worried that his savings wouldn't last Lisa whose expenses went up after her grown kids and their dog moved back home and many others What the statistics and the stories show Fulford argues is that a better fairer more productive economy is still possible The success of pandemic relief policy proves that Americans' economic fragility is not an unsolvable problem But we have to choose to solve it
