*Integrating Computational Thinking Through Design-Based Learning* Mustafa Saritepeci, Hatice Yildiz Durak, 2025-01-02

This book creates a theoretical framework to consider the integration of computational thinking CT into learning and teaching processes in different contexts from a design based learning DBL perspective and presents various intervention studies. The chapters each focus on a different aspect of CT integration through DBL providing an overview and discussing the benefits of integrating CT into the curriculum. The book also discusses the design thinking process and how it can be used to promote CT focusing on CT concepts and considering perspectives on how these concepts can be integrated into DBL activities. It also explores how artificial intelligence AI based design oriented learning activities can be used to develop students CT skills. It examines the information technology IT concept of pattern recognition and provides examples of how this can be integrated into DBL activities. It presents practical examples on integrating CT into the teaching learning process from a design based learning perspective, summarizes approaches to assessing CT skills and discusses them in the context of design based learning. Lastly, this book also conducts a bibliometric analysis of publication and citation trends in computational thinking research conducted in design based learning.
