Adu,2024-02-23

There are essential questions surrounding Africa's digitalization journey including whether or not the continent can truly serve as the last frontier for socio-economic transformation through digital innovation. An examination of countries such as Ghana, Kenya, Senegal, and Rwanda which are actively pursuing digitalization may provide some answers. To evaluate the potential implications both real and potential that arise from this focused pursuit, a critical analysis is necessary. Scrutiny of digital infrastructure by companies like Huawei, the emergence of artificial intelligence, and the advent of quantum computing will open new pathways to understanding and establishing promising approaches to the advancement of this region. Examining the Rapid Advance of Digital Technology in Africa offers a comprehensive exploration of the transformative power of digitalization in Africa and its implications for the continent's socio-economic development. It engages with the field of science and technology studies, linking it with socio-economic impacts and transformation to track, analyze, understand, and critique Africa's contributions to digitalization. The chapters cover a wide range of themes including ICTs and the business environment, education, healthcare, creative industries, media, culture, tourism, agriculture, ecology, artificial intelligence, blockchain, and cryptocurrency, revolution, algorithmic governance, the quantum age, and urbanization. This book is a must-read for researchers, scholars, investors, and policymakers who are interested in Africa's digital transformation as it offers valuable insights into the latest empirical and theoretical aspects shaping the continent's ongoing digitalization. *Report of First Annual Workshop for Teachers and Administrators of the Rocky Mountain Area Project for Small High Schools*, 1958
