

12 Crucial Blogging Tips for Beginners

1 Know Your Audience

You need to know what your audience is looking for to determine what will catch their attention. Use social media to find topics gaining traction.

2 Use your Audience

Read comments, ask questions, and gather feedback from your loyal followers to learn what topics will be most useful or interesting to them.

3 Write About Your Interests

If your niche reflects your passion and experience, then your audience will be like-minded. Focus on your own interests and your followers will share in your enthusiasm.

4 Build An Email List

Even if you don't plan to sell anything, you can use your email list to promote your content directly, without risking it getting lost in the internet and social media shuffle.

5 Choose A Good Hosting Provider

Some important factors to consider are cost, space, reliability, transfer limit, and customer/technical support. This information is available when you check packages and plans.

6 Reward Loyalty

Don't become so caught up in growing your following that you forget to engage those you already have. Regular interaction tells them you care about their satisfaction.

7 Give Stuff Away

People love free stuff. Use your blog to give away free content, free advice, tips and tricks, or even free gifts to engage your audience and keep them coming back.

8 Stay Consistent

It's hard to keep subscribers if you post a dozen pieces one week, then disappear for a month. Post at least once a week to keep your subscribers engaged and interested.

9 Keep Your Unique Voice

There are millions of blogs. The personality you inject into your writing is what will separate you from the pack. Allow your personality and writing style to shine through.

10 Be Patient

Successful blogging takes time to offer a return. When you start your blog, plan on investing a lot of time and effort before you start to see a significant following.

11 Hook 'em With The Headline

You have a split second to catch someone's attention and get them to click. Be sure that your headlines are catchy, short, and make them want to read your blog post.

12 Provide Easy-to-Read Value

Be sure posts are thorough, but keep them from being unnecessarily lengthy and unfocused. Use images, call-to-action boxes, bold headings, and bullet points to break up the content.

A N00b's Guide to WordPress BookCaps, Erin Micheletti, 2011. Ask most bloggers what they use and they'll say Blogger. And why shouldn't they? Blog is right smack in the title. And Google owns it and we all love Google, right? Blogger is also ridiculously simple so simple that any dummy with a computer can use it, which is how as a matter of fact so many crazy people get on syndicated news shows. Hint: if you want to get on a syndicated news show, just say something crazy and far-fetched. So Blogger, wait! This book isn't about Blogger. If Blogger is so ridiculously simple, why would anyone want to use WordPress? Easy, because WordPress can put Blogger's blog sack in a knot if the two go fist-to-cuffs. WordPress is powered by fancy things like PHP and MySQL and is often used as a CMS in web design. Not sure what those words mean. We'll get that shortly, but for now, just understand that they are unbelievably powerful. If you want to create a blog about different socks your grandma has sewn you for Christmas, then Blogger's a pretty good fit, but if you want to create a blog that'll knock your socks off, gorgeous, then read on and we'll show you how. Before continuing, be forewarned: this is not an in-depth manual that covers the tiniest details about WordPress; this is a handbook for starters who want to master it quickly or just want to know what it's all about. We are going to tell you everything you need to know in a way that you can understand.

[Blogging for Profit](#) Mark Gray, 2018-09-08. So many bloggers, marketers, and entrepreneurs don't really realize how a blog can become a goldmine. They think to blog as a useless and outdated activity to do because they don't comprise that a blog is one of the most available and profitable sales tools and it will remain one of the tops for many years. This dumb belief for which blogging is surpassed is made by thinking blogs like only text platforms and it is really stupid. In a blog, it is possible to integrate all the other performing platforms and group them in a unique and high marketable space. Of course, this is possible only with the right information and techniques. This updated manual is the result of more than 10 years of experience. Before to be an SEO expert and a writer, Mark Gray is a successful online marketer. So his main focus is obviously about making money exploiting organic and paid traffic. The goal of this practical manual is to help the students make a structured blog and finally understand HOW TO MONETIZE IT. What this manual DOESN'T include: The evolution of Blogging. Because no one cares and it is easily findable online. How to make a blog in an in-depth way. Because this is not a geek book. Not monetizable techniques. Because my students want to make more money and dumb theories do not help. Not profitable methods. Because my students do not want to lose their time and money. Pointless information. Outdated strategies. Stupid and useless tips. Everything else does not really work. The really worth approaches are not so much. And study a giant incomprehensible and full of useless
