Minnesota Library on Student Personnel Work ,1965      **Toward a Philosophy of Organized Student Activities**

Herbert Hewitt Stroup,1964 Toward a Philosophy of Organized Student Activities was first published in 1964 The increased scope and complexity of student personnel work in colleges and universities in recent years has emphasized the need for a more mature philosophy in the field This book outlines such a philosophy after tracing the growth of student activities in American institutions of higher education The author develops a number of themes to illustrate the present lack of coherent doctrine in organized student activities to analyze the problems involved and to make proposals for their solution He attacks some misconceptions of the proper function of student activities he does not believe for example that the development of the whole personality is a proper concern of the discipline nor on the other hand that its function is purely custodial He is concerned with defining the nature of the authority of the university in relation to the student and he shows that much of the difficulty in maintaining control of students stems from social and economic changes such as the decline of the hierarchical

family loose notions of individualism and the view of education as a commodity He makes clear his conviction that student activities given the proper objectives and the means of realizing them can contribute greatly to the educational process Administrators and faculty members outside the field may gain insight into organized student activities through this book and it will of course be of particular interest to workers in the field This is volume 7 in the Minnesota Library on Student Personnel Work of which E G Williamson is editor The Publishers' Trade List Annual ,1973 Diverse Issues in Higher Education ,2006 **Book of Majors 2010** The College Board,2009-07-07 The only book that describes majors in depth and lists colleges that offer them four year two year undergraduate and graduate programs The Book of Majors 2010 is the most comprehensive guide to academic programs with in depth descriptions of 200 of the most popular college majors This book answers the questions What s the major for you Where can you study it What can you do with it after graduation This is also the only guide that shows what degree levels each college offers in a major whether a certificate associate bachelor s master s or doctorate More than 900 majors at 3 600 colleges are listed including four year two year and technical schools sorted by state The guide features insights from the professors themselves on how each major is taught what preparation students will need career options and employment prospects and much more in depth profiles of several emerging majors such as Homeland Security and Sustainable Agriculture inside scoop in the descriptions of majors such as questions students should ask when visiting campuses and also professional societies and accrediting agencies to refer to for more background on the major Canadian Aeronautical Journal ,1961 Journal of the Royal Society of Arts Royal Society of Arts (Great Britain),1982 *Forthcoming Books* Rose Arny,2002 **Who's who in Finance and Business** ,2008
