Expert Ai Writing Tool Ideas:

Creations David H Cropley, 2025-03-25 This edited book explores creative products i.e. Creations as part of the seven C's of creativity framework. Through nine chapters leading scholars in the field explore five different domains: education, crime, terrorism, music, science, and engineering, addressing the nature of the creations in each given domain and the criteria by which creations in that domain are judged. Drawing together key underpinning concepts from the science of creativity, the book delves into the history of creativity research applied to products to then explore new concepts that are impacting on research, especially the role of artificial intelligence in supporting the development and assessment of creative products.
