intellectuals and the Chinese socialist revolution of the last century Under the Chinese Communist Party the intellectual was first and foremost a widening classification of individuals based on Marxist thought The party turned revolutionaries and otherwise ordinary people into subjects identified as usable but untrustworthy intellectuals an identification that profoundly affected patterns of domination interaction and rupture within the revolutionary enterprise Drawing on a wide range of data Eddy U takes the reader on a journey that examines political discourses revolutionary strategies rural activities urban registrations workplace arrangements organized protests and theater productions He lays out in colorful detail the formation of new identities forms of organization and associations in Chinese society The outcome is a compelling picture of the mutual constitution of the intellectual and the Chinese socialist revolution the legacy of which still affects ways of seeing thinking acting and feeling in what is now a globalized China

Chinese Communism 1931-1934 Trygve Lötveit, 1979 **The Soviet Union and Communist China, 1945-1950** Dieter Heinzig, 2004 Drawing on a wealth of new sources this work documents the evolving relationship between Moscow and Peking in the twentieth century Using newly available Russian and Chinese archival documents memoirs written in the 1980s and 1990s and interviews with high ranking Soviet and Chinese eyewitnesses the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China's relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions

How the "Red Star" Rose Ishikawa Yoshihiro, 2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Star over China all alone is in many instances misunderstood even by scholars Mao Zedong's biography has been the subject of an international mountain of commentary in China and elsewhere Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow's 1905 1972 account in Red Star over China for the route Mao traveled from early childhood through his youth How the Red Star Rose introduces the image of Mao and the

biographical information made known to the world through the publication of *Red Star* and with its publication the circumstances which they fundamentally undermined. Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being. He desires to help readers to reconsider the historicity of the generation of not only Mao's image but of that of historical materials. With a title that evokes Gao Hua's seminal study of Mao Zedong's rise in the Chinese Communist Party, Ishikawa Yoshihiro asks two critical questions: What did the world know of Mao before the publication of Edgar Snow's *Red Star over China*? How did *Red Star* change that understanding? With the meticulous research, careful documentation, and fair-minded judgment that characterizes all of Ishikawa's work, he shows how little even Moscow and the Communist International knew about Mao before 1936. This study is full of unexpected insights into the origins of early visual images of Mao, the background to Snow's historic trip to northern Shaanxi, and the evolution of the classic study that he left. In a world where balanced judgment of the rise of Mao is increasingly difficult to find, Ishikawa's scholarship stands out as a rare model of judicious balance.

Joseph W. Esherick, Emeritus Professor, Hwei-chih and Julia Hsiu Chair in Chinese Studies, University of California, San Diego. This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century, a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area. It is in addition a history of the reading of the book in multiple languages, including Chinese, that is indexed to the rise of the Mao cult thereafter. Ishikawa captures a moment of a past gearing up in anticipation of a future that never came. This book is a must-read for all with an interest in Mao, journalism, and the history of books.

Wen-hsin Yeh, Richard H. and Laurie C. Morrison Chair Professor in History, University of California, Berkeley. Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow's famous biography in 1936 and then how Snow's images of Mao were translated and transmuted into Chinese, Russian, and Japanese. Joshua Fogel's careful translation brings this impeccable example of Japanese sinology to the English-reading public.

Timothy Cheek, Professor and Louis Cha Chair in Chinese Research, University of British Columbia.

**Red Star over China** Edgar Snow, 2018-04-01

A historical classic that brings Mao Tse-tung, the Long March, and the Chinese revolution to vivid life. Foreign Affairs Journalist Edgar Snow was the first Westerner to meet Mao Tse-tung and the Chinese Communist leaders in 1936, and out of his up-close experience came this historical account, one of the most important books about the remarkable events that would shape not only the future of Asia but also the future of the world. This edition of *Red Star Over China* includes extensive notes on military and political developments in the country, interviews with Mao himself, a chronology covering 125 years of Chinese history, and nearly a hundred detailed biographies of the men and women who were

instrumental in making China what it is today      The Chinese Revolution, 1900-1950 Ranbir Vohra, 1974      The Origins of Chinese Bolshevism Michael Y. L. Luk, 1990 This book is the most thorough study to date of the founding period of Chinese communism and of the aspects of its ideology that had the greatest formative impact on the subsequent development of the Chinese Communist Party The study of the ideological aspects of the Chinese communist movement must address two questions how communist is it and how Chinese is it Dr Luk makes a major contribution to answering these questions through his fully comprehensive analysis of original CCP materials which enables him to reinterpret some previously held views on the subject      **Revolutionary Discourse in Mao's Republic** David Ernest Apter, Tony Saich, 1994 What does the Chinese Communist Revolution teach us about the relationship between political discourse and real experiences and events This unique interpretation of the revolutionary process in China uses empirical evidence as well as concepts from contemporary cultural studies to probe this significant question David Apter and Tony Saich base their analysis on recently available primary sources on party history English and Chinese language accounts of the Long March and Yan an period and interviews with veterans and their relatives Written by an eminent political theorist well seasoned in comparative development and an internationally recognized China scholar and abounding in new approaches to central issues this incisive analysis will be welcomed by social theorists and China scholars alike      *The Politics of Chinese Communism* Ilpyong J. Kim, 2023-07-28 The political system established by the Chinese Communist Party in 1949 had its origins in many respects in the Chinese Soviet Republic of 1931 1934 based in southern Kiangsi province about 400 miles southwest of Shanghai The Kiangsi period was important because it gave the Chinese Communists their first opportunity to govern an extensive area and a large population and in so doing to develop methods of mass mobilization as well as new techniques for conducting party and government affairs Kim explores the evolution of the Chinese Communist movement during the Kiangsi soviet period especially its organizational concepts behavioral patterns and development techniques of mass line politics He seeks answers to several questions What notions of organization shaped the Kiangsi political system Who formulated the policies How were they implemented at the rice roots level of government By analyzing Mao Tse tung s writings on organization and comparing them with those of other Chinese Communist theoreticians he achieves fresh insights into Mao s approach to administration and bureaucratic organization The distinct contribution of this book lies in its focus on such issues as how the Chinese Communist leaders viewed organizational problems within their movement especially following the failure of the 1947 revolution how they responded to these problems and how they maintained a balance of power among the party the government and the Red Army while administering the expanding territorial base and managing complex organizations This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was

originally published in 1973      From Rebel to Ruler Tony Saich, 2021-07-06 On the centennial of the founding of the Chinese Communist Party Tony Saich offers the definitive history of the CCP's rise and rule. The party has suffered self-inflicted wounds yet thrived thanks to its flexibility. Looking ahead, Saich assesses how the CCP is adapting to global leadership and the expectations of China's growing middle class.
