fish is a water dwelling vertebrate with gills that doesn't change form as amphibians do during its life. Most are cold blooded though some such as some species of tuna and shark are warm blooded. There are over 29 000 species of fish making them the most diverse group of vertebrates. Fishing is the activity of hunting for fish. Fishing is a very ancient practice that dates back at least to the Mesolithic period which began about 10 000 years ago. Fishing is the activity of hunting for fish. By extension the term fishing is also applied to hunting for other aquatic animals such as various types of shellfish as well as squid octopus turtles frogs and some edible marine invertebrates. Fish as a food describes the edible parts of water dwelling cold blooded vertebrates with gills as well as certain other water dwelling animals such as mollusks crustaceans and shellfish. An aquarium plural aquariums or aquaria is a vivarium usually contained in a clear sided container typically constructed of glass or high strength plastic in which water dwelling plants and animals usually fish and sometimes invertebrates as well as amphibians marine mammals and reptiles are kept in captivity often for public display or it is an establishment featuring such displays. A detailed guide of everything you want and need to know about fish China Reconstructs, 1978 The Guide to Nature, 1922 *Chinatown Gangs* Ko-lin Chin, 2000-02-10 In *Chinatown Gangs* Ko lin Chin penetrates a closed society and presents a rare portrait of the underworld of New York City's Chinatown. Based on first hand accounts from gang members gang victims community leaders and law enforcement authorities this pioneering study reveals the pervasiveness the muscle the longevity and the institutionalization of Chinatown gangs. Chin reveals the fear gangs instill in the Chinese community. At the same time he shows how the economic viability of the community is sapped and how gangs encourage lawlessness making a mockery of law enforcement agencies. Ko lin Chin makes clear that gang crime is inexorably linked to Chinatown's political economy and social history. He shows how gangs are formed to become equalizers within a social environment where individual and group conflicts whether social political or economic are unlikely to be solved in American courts. Moreover Chin argues that Chinatown's informal economy provides yet another opportunity for street gangs to become providers or protectors of illegal services. These gangs therefore are the pathological manifestation of a closed community one whose problems are not easily seen and less easily understood by outsiders. Chin's concrete data on gang characteristics activities methods of operation and violence make him uniquely qualified to propose ways to restrain gang violence and Chinatown Gangs closes with his specific policy suggestions. It is the definitive study of gangs in an American Chinatown.
