Chinese Warfighting The PLA Experience Since 1949:

Chinese Warfighting Mark A. Ryan, David Michael Finkelstein, Michael A. McDevitt, 2003 This is the first systematic study of modern China's military campaigns and the actual fighting conducted by the People's Liberation Army since the founding of the People's Republic. It provides a general overview of the evolution of PLA military doctrine and then focuses on major combat episodes from the civil war with the Nationalists to the last significant combat in Vietnam in 1979 in addition to navy and air operations through 1999. In contrast to the many works on the specifics and hardware of China's military modernization, this book discusses such topics as military planning, command and control, fighting and politics, combat tactics and performance, technological catch up and doctrinal flexibility, the role of Mao Zedong, scale and typologies of fighting and deterrence. The contributors include scholars from Mainland China, Taiwan, and the United States who draw from a wealth of fresh archival sources.

Chinese Warfighting, 2003

China's Military Power: A Net Assessment, 2015-01-15 This book is a structured net assessment of China's military power by a reputed and well-known Indian military analyst. The growth of Chinese military power has been examined with emphasis on how it primarily affects India. The book analyses how India must respond. It has an exhaustively researched section on how the Chinese PLA has performed in actual combat since 1949 and a detailed analysis of the evolution of China's military doctrines and strategic culture. The most dangerous for India is the exponential growth in the Chinese Airpower PLAAF. China has already changed Asia's balance of power.

The Philosophy of Chinese Military Culture W. Mott, J. Kim, 2006-04-02 Drawing on ancient texts and modern interpretations, this work explores the foundations for war in China's strategic culture. Shih Li and Tao. The work uses Shih theory to explain the anomalies that continue to perplex Euro-American observers in modern China's uses of force.

The Chinese Army Today Dennis J. Blasko, 2013-06-17 The Chinese Army Today is a comprehensive study of the Chinese military, examining its ground forces in a level of detail not found in any other contemporary works. This new revised edition has been fully updated to take account of recent changes in the institution. In 1999, the military modernization program of the Chinese People's Liberation Army increased in intensity and achieved a focus not seen in the previous two decades. Based primarily on actual Chinese sources, this book details these changes and puts them in the context of the many traditions that still remain. Written by a retired professional military officer who has served in China, the text uses first-hand observation of the Chinese military and three decades of military experience to weave many disparate threads from official Chinese statements, documents, and media reports into an integrated whole. The author also conducts an in-depth exploration into the many forces that constitute the People's Liberation Army. This is an essential book for all students of Chinese military and security affairs and highly recommended for students of Chinese Politics, Asian Security, and International Relations and Strategic Studies in general.

China's Use of Military Force in Foreign Affairs Markus B. Liegl, 2017-03-16 This book explains why China has resorted to the use of large-scale military force in foreign affairs. How will China use its growing military might in coming crisis and

existing conflicts This book contributes to the current debate on the future of the Asia Pacific region by examining why China has resorted to using military force in the past Utilizing fresh theoretical insights on the causes of interstate war and employing a sophisticated methodological framework the book provides detailed analyses of China's intervention in the Korean War the Sino Indian War China's border clashes with the Soviet Union and the Sino Vietnamese War It argues that China did not employ military force in these wars for the sake of national security or because of material issues under contestation as frequently claimed Rather the book's findings strongly suggest that considerations about China's international status and relative standing are the principal reasons for China's decision to engage in military force in these instances When reflecting the study's central insight back onto China's contemporary territorial conflicts and problematic bilateral relationships it is argued that the People's Republic is still a status seeking and thus highly status sensitive actor As a result China's status ambitions should be very carefully observed and well taken into account when interacting with the PRC This book will be of much interest to students of Chinese foreign policy Asian politics military and strategic studies and IR in general

Supreme Leadership in Modern War James Lacey,Williamson Murray,2023-10-26 This edited volume focuses on civil military relations before and during great power conflicts and comprises historical case studies of modern supreme leadership It aims to provide a guide for the future by shining a light on what worked and what failed in the civil military relationships that steered great powers during the last era of rapid global change While future civil military relationships will have to adapt to the current global environment the past remains as always a prelude Thus crucial concepts that underpin all such relationships are eternal and are waiting to be drawn out by historians trained to examine and present them to those who can put them to immediate good use This volume demonstrates the relevance of history in every chapter as readers will see parallels to today's problems throughout every case study The world is entering an age of great challenges many of which require nations particularly the most powerful to establish civil military relationships capable of navigating dangerous currents without a repeat of the calamities reminiscent of the last century Each chapter focuses on a particular civil military relationship as it developed before and during a great war The editors have gathered leading experts on each of these periods to produce a concise but thorough essay on each relationship's intricacies This book will be of much interest to students of military and strategic studies military history and international relations as well as professional military colleges and policymakers

The People's Liberation Army as Organization James C. Mulvenon,Andrew N. D. Yang,2002 This book is the product of a conference held in August 2000 that brought together many of the nation's top experts to evaluate issues of structure and process in the People's Liberation Army PLA The editors believe that fundamental knowledge about the PLA can be ascertained from the study of its organizational structure and that this type of structure and process analysis is the critical first step toward a revolution in our understanding of the central issues including how the PLA will fight The papers in this volume present a comprehensive view of the administrative and operational structure of the PLA In

Wortzel, 2005 This volume represents the fruits of a conference held at the U S Army War College in September 2005 on the theme of Chinese Crisis Management One of the major debates that emerged among participants was whether all the case studies under examination constituted crises in the eyes of China's leaders The consensus was that not all of those incidents were perceived as crises As a result the rubric of decision making under stress was adopted as presenters revised their papers for publication
